STUDY TIMELINE

DATA CLEANING PROCEDURES

Overall goal
Create 7 separate datasets:

- Pre survey (01_presurvey_coco_ut2.csv)
- Onboarding survey (02_onboarding_survey_coco_ut2.csv)
- Daily survey (03_daily_survey_coco_ut2.csv)
- EMA survey (04_ema_survey_coco_ut2.csv)
- Weekly app usage surveys (05_appusage_survey_coco_ut2.csv)
- Post survey (06_postsurvey_coco_ut2.csv)
- Writing prompts (07_writing_prompts_coco_ut2.csv)

General (applies to all data sets)

- Replace all ids by anonymous participant IDs
- Filter out test users
- Remove preview data
- Rename variables so they match the names in the codebook
- Check that all variables are in the same order as listed in the codebook
    - id, StartDate, EndDate, RecodedDate, DistributionChannel (only for EMA and daily survey), Status, Duration, Finished
    - Variables listed in the codebook
    - Variables that were created during the data cleaning
        - timezone + converted dates (see change times to participant's timezone)
        - number of questions + threshold + dropping rule too quickly (see reports completed too quickly)
        - dropping rule too young (see remove participants under 18 years)
        - Additional variables + dropping rules (see EMA and daily survey)
- Check response codings for errors (to make sure they match what is in the codebook)
- Change times (StartDate, EndDate, RecordedDate) to participant's timezone → new variables: timezone, StartDateConvert, EndDateConvert, RecordedDateConvert
- Reports completed too quickly
    - Calculate # of questions answered in a given report and create a threshold by multiplying that number by .5 sec; indicate whether the report was completed faster than the threshold
- Remove participants under 18 years
    - Remove all participants who were under 18 at the beginning of the semester and did not turn 18 before the start of the study
- If 0 = Skip question, code 0 to NA

Surveys (Pre Survey, Onboarding Survey, Weekly App Usage Surveys, Post Survey, Writing Prompts)

- Remove duplicates (except for onboarding survey)
    - Keep the most complete response
    - If multiple responses are complete, keep the first response
- Reverse code items, calculate scale means, SDs, and reliabilities (only for pre and post survey)

EMA Survey

- Additional variables based on the converted start date:
    - **time_of_day:** We operationalized the time of day categories into 6-hr periods as follows: morning (6:00 a.m. to 11:59 a.m.), afternoon (12:00 p.m. to 5:59 p.m.), evening (6:00 p.m. to 11:59 p.m.), night (12:00 a.m. to 5:59 a.m.)
    - **calendar_date**
    - **overall_study_day:** starts on the first day of the writing assignment
    - **participant_study_day:** starts on the first day the individual participant completed their first EMA report
    - **weekend:** binary 0/1 (0 = Mondays-Fridays, 1 = Saturdays & Sundays)
    - **spring_break:** binary 0/1 to reflect whether spring break is happening (0 = before Mar 22 or after Mar 23, 1 = Mar 22 & Mar 23)
- Additional variables for completeness:
    - **surveys_per_id:** Total number of surveys completed per participant
    - **days_per_id:** Total number of days completed per participant
- Dropping rules: "0" doesn't violates rule, "1" violates rule
    - Reports completed too soon after the previous report
        - Started a new report less than 60 min after previous report was started
    - Reports completed too quickly
        - Calculate # of questions answered in a given report and create a threshold by multiplying that number by .5 sec; indicate whether the report was completed faster than the threshold
    - Reports took too long to complete (>60 minutes)

- Participants who responded "strongly disagree" to the following question at the end of the writing assignment: "I responded as truthfully as possible to the daily surveys during Step 2 of self-tracking. Note: Your response to this question will NOT affect your grade."
- Participants under 18 years: remove all participants who were under 18 at the beginning of the semester and did not turn 18 before the start of the study
  - Drop anyone who has a "1" in at least one of the columns above

Daily Survey

- Additional variables based on the converted start date:
  - **time_of_day:** We operationalized the time of day categories into 6-hr periods as follows: morning (6:00 a.m. to 11:59 a.m.), afternoon (12:00 p.m. to 5:59 p.m.), evening (6:00 p.m. to 11:59 p.m.), night (12:00 a.m. to 5:59 a.m.)
  - **calendar_date**
  - **overall_study_day:** starts on the first day of the writing assignment
  - **participant_study_day:** starts on the first day the individual participant completed their first daily survey
  - **weekend:** binary 0/1 (0 = Mondays-Fridays, 1 = Saturdays & Sundays)
  - **spring_break:** binary 0/1 to reflect whether spring break is happening (0 = before Mar 22 or after Mar 23, 1 = Mar 22 & Mar 23)
- Additional variables for completeness:
  - **days_per_id:** Total number of days completed per participant
- Dropping rules: "0" doesn't violates rule, "1" violates rule
  - Reports completed too soon after the previous report
    - Started a new report on the same day as the previous report was started
    - Retain only the first report
  - Reports completed too quickly
    - Calculate # of questions answered in a given report and create a threshold by multiplying that number by .5 sec; indicate whether the report was completed faster than the threshold
  - Reports took too long to complete (>24 hours)
  - Participants who responded "strongly disagree" to the following question at the end of the writing assignment: "I responded as truthfully as possible to the daily surveys during Step 2 of self-tracking. Note: Your response to this question will NOT affect your grade."
  - Participants under 18 years: remove all participants who were under 18 at the beginning of the semester and did not turn 18 before the start of the study
    - Drop anyone who has a "1" in at least one of the columns above

Overview of the number of excluded participants due to the dropping rules

- Pre survey: participant *N* after data cleaning = 928; number of deleted participants = 4 (duplicates = 59)
- Onboarding survey: participant *N* after data cleaning = 860 (1,087 rows); number of deleted participants = 3
- Daily survey: initial participant *N* = 764, initial observation *N* = 8,391; participant *N* after data cleaning = 744, observation *N* after data cleaning = 7,831; number of deleted participants = 20, number of deleted observations = 560
- EMA survey: initial participant *N* = 764, initial observation *N* = 55;903; participant *N* after data cleaning = 744, observation *N* after data cleaning = 52,560; number of deleted participants = 20, number of deleted observations = 3,343
- Weekly app usage surveys
  - Weekly 1: participant *N* after data cleaning = 612; number of deleted participants = 3 (duplicates = 307)
  - Weekly 2: participant *N* after data cleaning = 507; number of deleted participants = 3 (duplicates = 120)
  - Weekly 3: participant *N* after data cleaning = 606; number of deleted participants = 2 (duplicates = 375)
  - Weekly 4: participant *N* after data cleaning = 593; number of deleted participants = 1 (duplicates = 187)
  - Total participant *N* weekly surveys = 799
- Post survey: participant *N* after data cleaning = 593; number of deleted participants = 1 (duplicates = 187)
- Writing prompts: participant *N* after data cleaning = 849; number of deleted participants = 3 (duplicates = 39)

Overview of Writing Assignment #2 (WA2)

Variable Name	Description
	Assignment Instructions Welcome to Writing Assignment #2 (WA2). The goal of this assignment is to encourage you reflect on how well you know yourself. There is plenty of research in psychology showing that humans are not very good at predicting their own behaviors or even having a good sense of their past behaviors. To help you explore these issues, the current writing assignment consists of three parts. In the first part, you will answer a questionnaire that asks about your behaviors and lifestyle and your experiences during the COVID-19 pandemic. The first part of this assignment will open on 2/25 and be due on 3/4 by 11:59pm. Please access the assignment for Step 1 {HERE}. In the second part, which will last for four weeks, you will keep track of your own behaviors and moods. You will have a choice of two ways to self-track – using a smartphone app or keeping a handwritten journal (more details on these options below). If you do the smartphone app option, you will receive feedback at the end of each week on your behaviors and moods. This second part of WA2 will open on 3/4 and be due on 4/1 by 11:59pm. Please access the assignment for Step 2 {HERE}. In the third part, you will be provided with feedback about your behaviors and moods (unless you do the handwritten-journal option). You will then write about what you have learned about yourself from this self-tracking exercise. This third part of WA2 will open on 4/5 and be due on 4/11 at 11:59pm. So, here's how it will work: The assignment consists of three steps that must be completed in order. Step 1: Take a survey about your lifestyle (1 point) Step 1 is a 20-30 minute survey about your behaviors and lifestyle and your experiences during the COVID-19 pandemic. You must complete this survey in order to progress to the next step. You can begin Step 1 now, by going to the Step 1 Assignment page {HERE}. Step 1 will be available from 2/25 and close on 3/4 at 11:59pm. NOTE: Your point for this step will be awarded some time after its portal has closed, not immediately after you turn it in. Step 2: Record your own daily experiences (4 points) During Step 2, you will record your experiences for four weeks using one of two methods. Both methods will require that you record your behaviors and moods up to 8 times a day. You have two options for self-tracking (but don't have to decide between them until next week): Option 1: Smartphone App This will involve downloading an app that will send you the 8 daily notifications and you will respond to the surveys on the app. This app will also access some of the sensors (e.g., location) on your phone and give you feedback on those (e.g., how active vs. sedentary you are in your everyday life). PROS: Reminders come straight to your phone; you will get feedback on self-reported moods and behaviors and on data generated by your phone sensors. CONS: Your phone battery could run down a little faster. Option 2: Handwritten journal If you prefer to record your experiences another way, you may do so by keeping a handwritten journal for four weeks. However, you will not receive any personalized feedback. You should record the following in your journal at least 4 times each day: the places you spent time in (e.g., home, campus, cafe, store), the activities you engaged in (e.g., studying, exercising, running errands), the people you interacted with (e.g., friends, family, strangers), the types of social interactions you had (e.g., in-person conversations, calls, texts, social media use), the topics you talks about (e.g., classes, leisure activities, personal issues), and your moods (e.g., how angry, worried, happy, sad you feel). PROS: No information on your moods and behaviors will be sent to us; you will not have to check notifications; your phone will not run down any faster than normal. CONS: You will need to manually keep track of moods and behaviors; you will not receive any feedback. More information on Step 2 can be found {HERE}. How many surveys do I have to complete? The surveys will be sent out on 28 consecutive days (3/4 - 4/1) We recognize that it won't be possible to record your behaviors every one of those days or every time you receive a notification Therefore, to get the points for this step, you need to fill out the surveys (at least 4 times per day) for 14 days of the 28 days (3/4 - 4/1). NO credit will be awarded for less than the minimum of 14 complete days between 3/4 and 4/1. Again, to get the full points for Step 2, you must have at least 14 days worth of self-tracking between 3/4 and 4/1 and each of those days must have at least 4 surveys completed. No partial credit will be granted for this step.

	Seven surveys will be sent at random times throughout the day (between 8am and 10pm). One survey will be sent at 8am every day. The surveys each take 2-3 minutes to complete. You should complete at least 4 of the 8 surveys on each day you participate. Of course, you are encouraged to complete even more than the minimum because doing so will provide you with more detailed and more accurate feedback. The more surveys you provide, the more information you'll have for the later stages of the assignment and the more information you'll have about yourself. So, if possible, we recommend filling out at least 5 surveys each day to give a full picture of your behaviors throughout the day. More than 5 is even better! In addition to the 8 daily surveys, you will receive one weekly survey about your app usage at the end of every self-tracking week. Those using the app will also receive confidential personalized feedback reports throughout our assignment. These reports will chart your responses to the surveys and data from the phone sensors. NOTE: Your point for this step will be awarded some time afer its portal has closed, not immediately afer you turn it in. Step 3: Write about your lifestyle (3 points) In Step 3, you will spend approximately 30 minutes answering different writing prompts about your daily life. You will also be asked to write about what you learned about yourself from the personal feedback reports you receive from Step 2. Step 3 will be available on 4/5 and close on 4/11 at 11:59pm. All steps must be completed by their midnight deadlines. There are no exceptions to this rule. All three steps must be completed in order to receive credit for WA2. The first step is worth 1 point. You will see this point after 3/4. The second step is worth 4 points. You will see these points after 4/1. The third step is worth 3 points. You will see these points after 4/11. If you have any problems with this assignment, please email us at psy301selftrackingassignment@gmail.com.

STEP 1: PRE- & ONBOARDING SURVEY

Feb 25 – Mar 4 2021

Pre-Survey

All items in the pre-survey were request response items. If no response was given, participants were asked if they would like to go back and answer the skipped question before they could move on to the next page.
All items assessed in the pre-survey have a "_t1"-suffix.
Items marked with an asterisk "" need to be recoded.*

Variable Name	Description
	The number of participants differed between surveys. In total, 973 students participated in the writing assignment. However, not every partcipant completed each survey. Thus, there are separate data sets available per survey.
id	SP21_*random combination of 12 letters and digits*
	Welcome to Step 1 of Writing Assignment #2 (WA2). First, you will answer some questions about your behaviors and lifestyles. If you have any questions about the study, please email psy301selftrackingassignment@gmail.com.
NARQ-S	
Leckelt, M., Wetzel, E., Gerlach, T. M., Ackerman, R. A., Miller, J. D., Chopik, W. J., Penke, L., Geukes, K., Küfner, A. C. P., Hutteman, R., Richter, D., Renner, K.-H., Allroggen, M., Brecheen, C., Campbell, W. K., Grossmann, I., & Back, M. D. (2018). Validation of the Narcissistic Admiration and Rivalry Questionnaire Short Scale (NARQ-S) in convenience and representative samples. *Psychological Assessment*, *30*(1), 86-96. https://doi.org/10.1037/pas0000433	
	Please indicate how much the following statements apply to you using a response format ranging from "1 = not agree at all" to "6 = agree completely".
	Rating scale: 1 (Not agree at all) – 6 (Agree completely)
narqs_1_t1	I react annoyed if another person steals the show from me.
narqs_2_t1	I deserve to be seen as a great personality.
narqs_3_t1	I want my rivals to fail.
narqs_4_t1	Being a very special person gives me a lot of strength.
narqs_5_t1	I manage to be the center of attention with my outstanding contributions.
narqs_6_t1	Most people are somehow losers.
Honesty Humility	
The following items were selected from: Ashton, M. C., & Lee, K. (2009). The HEXACO-60: A short measure of the major dimensions of personality. *Journal of Personality Assessment, 91*(4), 340-345. https://doi.org/10.1080/00223890902935878	
	On the following pages, you will find a series of statements about you. Please read each statement and decide how much you agree or disagree with that statement. Please answer every statement, even if you are not completely sure of your response.
	Rating scale: 1 (Strongly disagree); 2 (Disagree); 3 (Neutral (neither agree nor disagree)); 4 (Agree); 5 (Strongly agree)
hex60_1_t1	I wouldn't use flattery to get a raise or promotion at work, even if I thought it would succeed.
hex60_2_t1*	If I knew that I could never get caught, I would be willing to steal a million dollars.
hex60_3_t1	Having a lot of money is not especially important to me.

hex60_4_t1*	I think I am entitled to more respect than the average person is.
hex60_5_t1*	If I want something from someone, I will laugh at that person's worst jokes.
hex60_6_t1	I would never accept a bribe, even if it were very large.
hex60_7_t1*	I would get a lot of pleasure from owning expensive luxury goods.
hex60_8_t1*	I want people to know that I am an important person of high status.
hex60_9_t1	I wouldn't pretend to like someone just to get that person to do favors for me.
hex60_10_t1*	I'd be tempted to use counterfeit money, if I were sure I could get away with it.

Satisfaction with Life Scale

Diener, E. D., Emmons, R. A., Larsen, R. J., & Griffin, S. (1985). The satisfaction with life scale. *Journal of Personality Assessment, 49*(1), 71-75. https://doi.org/10.1207/s15327752jpa4901_13

	Below are five statements that you may agree or disagree with. Using the 1 - 7 scale below, indicate your agreement with each item. Please be open and honest in your responding.
	Rating scale: 1 (Strongly disagree); 2 (Disagree); 3 (Slightly disagree); 4 (Neither agree nor disagree); 5 (Slightly agree); 6 (Agree); 7 (Strongly agree)
swls_1_t1	In most ways my life is close to my ideal.
swls_2_t1	The conditions of my life are excellent.
swls_3_t1	I am satisfied with my life.
swls_4_t1	So far I have gotten the important things I want in life.
swls_5_t1	If I could live my life over, I would change almost nothing.

UCLA Loneliness Scale

Luhmann, M., Bohn, J., Holtmann, J., Koch, T. & Eid, M. (2016). I'm lonely, can't you tell? Convergent validity of self- and informant ratings of loneliness. *Journal of Research in Personality*, *61*, 50–60. https://doi.org/10.1016/j.jrp.2016.02.002

	Rating scale: 1 (I never feel this way); 2 (I rarely feel this way); 3 (I sometimes feel this way); 4 (I often feel this way)
uls_1_t1	How often do you feel that you lack companionship?
uls_2_t1*	How often do you feel that you are "in tune" with the people around you?
uls_3_t1*	How often do you feel that there are people you can talk to?
uls_4_t1	How often do you feel left out?
uls_5_t1*	How often do you feel that there are people you can turn to?
uls_6_t1*	How often do you feel that you have a lot in common with the people around you?
uls_7_t1*	How often do you feel close to people?
uls_8_t1	How often do you feel isolated from others?
uls_9_t1*	How often do you feel part of a group of friends?

Affective Well-Being

Richter D., Rohrer J., Metzing M., Nestler W., Weinhardt M., & Schupp, J. (2017). SOEP Scales Manual (updated for SOEP-Core v32.1). SOEP Survey Papers 423, Series C. https://www.diw.de/documents/publikationen/73/diw_01.c.571151.de/diw_ssp0423.pdf
Three items were added (enthusiastic, relaxed, stressed).

	This scale consists of a number of words that describe different feelings. Please indicate for each feeling how often or rarely you experienced this feeling in the last four weeks.
	Rating scale: 1 (Very rarely) – 5 (Very often)
awb_1_t1	Angry
awb_2_t1	Worried
awb_3_t1	Happy
awb_4_t1	Sad
awb_5_t1	Enthusiastic
awb_6_t1	Relaxed
awb_7_t1	Stressed

Trust in Government

The following items were taken from the Politics survey of the COVID sensing study: http://covid19.ut-wcwh.org/

	Rating scale: 1 (Never); 2 (Some of the time); 3 (About half the time); 4 (Most of the time); 5 (Always)
tig_1_t1	How often can you trust the federal government to do what is right?
	Rating scale: 1 (Very dissatisfied); 2 (Dissatisfied); 3 (Neither satisfied nor dissatisfied); 4 (Satisfied); 5 (Very satisfied)
tig_2_t1	How satisfied are you with the work of the federal government in the current coronavirus pandemic?
tig_3_t1	How satisfied are you with the work of your state's government in the current coronavirus pandemic?

Support for Democracy

The following items were taken from the Politics survey of the COVID sensing study: http://covid19.ut-wcwh.org/

	To what extent do you agree with the following statements?
	Rating scale: 1 (Strongly disagree); 2 (Disagree); 3 (Somewhat disagree); 4 (Neither agree nor disagree); 5 (Somewhat agree); 6 (Agree); 7 (Strongly agree)
sfd_1_t1	Having experts, not congress, make decisions according to what they think is better for the country.
sfd_2_t1	Having a strong leader who doesn't have to bother with congress and elections is needed.

sfd_3_t1	Having the military govern the country.
sfd_4_t1	Having a democratic political system.

Coronavirus Knowledge

The following items were taken from the Politics survey of the COVID sensing study: http://covid19.ut-wcwh.org/

	To what degree have you felt that…
	Rating scale: 1 (None at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
corona_know_1_t1	People are making too big of a deal about COVID-19?
corona_know_2_t1	COVID-19 might be the result of a government conspiracy?
corona_know_3_t1	COVID-19 is a result of climate change?
corona_know_4_t1	COVID-19 is just a normal thing that happens every now and then?
corona_know_5_t1	COVID-19 is a result of immigrants coming to your country?
corona_know_6_t1	COVID-19 is a result of the introduction of the 5G mobile network?
corona_know_7_t1	COVID-19 is no worse than getting the flu?
corona_know_8_t1	COVID-19 can be cured by hydrochloroquine?
corona_know_9_t1	Wearing a mask does not help limit the spread of the coronavirus?

Voting Behavior

The following items were self-created.

party_affiliation_t1	With which party do you most identify?
	Select one: 1 (Republican Party); 2 (Democratic Party); 3 (Other (please specify)); 4 (None, I am not politically engaged)
party_affiliation_specification_t1	*Open answer format if party_affiliation_t1 = 3 (Other (please specify))*
voting_2020_t1	Who did you support in the 2020 presedential election?
	Select one: 1 (Trump); 2 (Biden) 3 (Other (please specify))
voting_2020_specification_t1	*Open answer format if voting_2020_t1 = 3 (Other (please specify))*
political_orientation	I would describe myself as:
	Select one: 1 (Extremely liberal); 2 (Liberal); 3 (Slightly liberal); 4 (Neither liberal nor conservative); 5 (Slightly conservative); 6 (Conservative); 7 (Extremely conservative)

Perceived Societal Marginalization

Bollwerk, M., Back, M., & Schlipphak, B. (2020). Perceived Societal Marginalization. Retrieved from osf.io/mu782

	In the following, you will see seven general statements relating to situations that people like you find themselves in in our society. Regarding the phrase "people like me", please consider people in our society who are in a similar situation to your own or people you relate to. There are no right or wrong answers. How strongly do you agree with the following statements? Your response can range from 1 ("Completely disagree") to 6 ("Completely agree").
	Rating scale: 1 (Completely disagree) – 6 (Completely agree)
psm_1_t1	Most politicians do not care what people like me think.
psm_2_t1	The values of people like me are becoming less and less important in society.
psm_3_t1	The work of people like me is not recognized enough in society.
psm_4_t1	The problems of people like me are unimportant to most politicians.
psm_5_t1	The customs, traditions and manners fo people like me are less and less appreciated.
psm_6_t1	No matter how hard we work, people like me are not appreciated.
psm_7_t1	People like me are no longer allowed to express their opinions freely in public.

Conspiracy Mentality Scale

Bruder, M., Haffke, P., Neave, N., Nouripanah, N., & Imhoff, R. (2013). Measuring individual differences in generic beliefs in conspiracy theories across cultures: Conspiracy Mentality Questionnaire. *Frontiers in Psychology*, *4*. https://doi.org/10.3389/fpsyg.2013.00225

	I think that…
	Rating scale: 1 (Certainly not); 2 (Extremely unlikely); 3 (Very unlikely); 4 (Unlikely); 5 (Somewhat unlikely); 6 (Undecided); 7 (Somewhat likely); 8 (Likely); 9 (Very likely); 10 (Extremely likely); 11 (Certain)
cms_1_t1	…many very important things happen in the world, which the public is never informed about.
cms_2_t1	…politicians usually do not tell us the true motives for their decisions.
cms_3_t1	…government agencies closely monitor all citizens.
cms_4_t1	…events which superficially seem to lack a connection are often the result of secret activities.
cms_5_t1	…there are secret organizations that greatly influence political decisions.

Social Dominance Orientation Scale

Ho, A. K., Sidanius, J., Kteily, N., Sheehy-Skeffington, J., Pratto, F., Henkel, K. E., Foels, R., & Stewart, A. L. (2015). The nature of social dominance orientation: Theorizing and measuring preferences for intergroup inequality using the new SDO7 scale. *Journal of Personality and Social Psychology*, *109*(6), 1003-1028. https://psycnet.apa.org/doi/10.1037/pspi0000033

	Show how much you favor or oppose each idea below by selecting a number from 1 (strongly oppose) to 7 (strongly favor) on the scale below. You can work quickly; your first feeling is generally best.
	Rating scale: 1 (Strongly oppose); 2 (Somewhat oppose); 3 (Slightly oppose); 4 (Neutral); 5 (Slightly favor); 6 (Somewhat favor); 7 (Strongly favor)
sdo_1_t1	An ideal society requires some groups to be on top and others to be on the bottom.

sdo_2_t1*	We should do what we can to equalize conditions for different groups.
sdo_3_t1*	No one group should dominate in society.
sdo_4_t1	It is unjust to try to make groups equal.

Authoritarianism Short Scale (KSA-3)

Nießen, D., Schmidt, I., Beierlein, C., & Lechner, C. M. (2019). An English-language adaptation of the Authoritarianism Short Scale (KSA-3). *Zusammenstellung sozialwissenschaftlicher Items und Skalen (ZIS)*. https://doi.org/10.6102/zis272

	How would you rate the following statements?
	Rating scale: 1 (Do not agree at all); 2 (Hardly agree); 3 (Somewhat agree); 4 (Mostly agree); 5 (Completely agree)
ksa_1_t1	Troublemakers should be made to feel that they are not welcome in society.
ksa_2_t1	People should leave important decisions in society to their leaders.
ksa_3_t1	Well-established behavior should not be questioned.

Political Polarization

Druckman, J. N., & Levendusky, M. S. (2019). What do we measure when we measure affective polarization?. *Public Opinion Quarterly*, *83*(1), 114-122. https://doi.org/10.1093/poq/nfz003

	The following questions were displayed if party_affiliation_t1 = 1 (Republican Party).
	Rating scale: 1 (Not at all comfortable); 2 (Not too comfortable); 3 (Somewhat comfortable); 4 (Extremely comfortable)
political_polar_1_t1	How comfortable are you having close personal friends who are supporters of the Democratic Party?
political_polar_2_t1	How comfortable are you having neighbors who are supporters of the Democratic Party?
political_polar_3_t1	How comfortable would you feel marrying a supporter of the Democratic Party?
	The following questions were displayed if party_affiliation_t1 = 2 (Democratic Party).
	Rating scale: 1 (Not at all comfortable); 2 (Not too comfortable); 3 (Somewhat comfortable); 4 (Extremely comfortable)
political_polar_4_t1	How comfortable are you having close personal friends who are supporters of the Republican Party?
political_polar_5_t1	How comfortable are you having neighbors who are supporters of the Republican Party?
political_polar_6_t1	How comfortable would you feel marrying a supporter of the Republican Party?
	The following questions were displayed to all participants.
	Rating scale: 1 (Extremely unfavorable); 2 (Very unfavorable); 3 (Moderately unfavorable); 4 (Slightly unfavorable); 5 (Neither favorable nor unfavorable); 6 (Slightly favorable); 7 (Moderately favorable); 8 (Very favorable); 9 (Extremely favorable)
political_polar_7_t1	How favorable do you feel about the Democratic Party?
political_polar_8_t1	How favorable do you feel about the Republican Party?

Media Consumption

The following items were taken from the Media Use survey of the COVID sensing study: https://covid19.ut-wcwh.org/

	Rating scale: 1 (None at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
media_1_t1	How much attention do you pay to news about national politics (including as it relates to coronavirus) on TV, radio, printed newspapers, or the Internet?
media_2_t1	How much trust do you have in the mass media (e.g. TV networks, newspapers, etc.) when it comes to reporting the news fully, accurately, and fairly?
	For privacy reasons, we will not provide the following four variables (media_twitter_handle_t1 – media_facebook_handle_t1) to collaborators.
	If you are willing to share your Twitter, Reddit, Instagram, or Facebook handles, we will analyze your language to learn how the COVID-19 outbreak has been affecting how you talk and interact with others:
media_twitter_handle_t1	*Open answer format*
media_reddit_handle_t1	*Open answer format*
media_instagram_handle_t1	*Open answer format*
media_facebook_handle_t1	*Open answer format*
	Using the scale below, please indicate how often you use each of the following digital media platforms.
	Rating scale: 1(Never); 2 (About once a year); 3 (A few times a year); 4 (About once a month); 5 (A few times a month); 6 (About once a week); 7 (A few times a week); 8 (About once a day); 9 (A few times a day); 10 (About once an hour); 11 (A few times an hour)
media_facebook_use_t1	Facebook
media_facebookmessenger_use_t1	Facebook Messenger
media_twitter_use_t1	Twitter
media_instagram_use_t1	Instagram
media_snapchat_use_t1	Snapchat
media_tiktok_use_t1	TikTok
media_reddit_use_t1	Reddit
media_youtube_use_t1	Youtube
media_whatsapp_use_t1	WhatsApp

media_houseparty_use_t1	Houseparty
media_linkedin_use_t1	LinkedIn
media_sms_use_t1	Text messaging using SMS/Messages
media_other_use_t1	Text messaging with a platform not listed above
media_other_use_specification_t1	*Open answer format*
	Overall, how often do you spend time in the following ways?
	Rating scale: 1(Never); 2 (About once a year); 3 (A few times a year); 4 (About once a month); 5 (A few times a month); 6 (About once a week); 7 (A few times a week); 8 (About once a day); 9 (A few times a day); 10 (About once an hour); 11 (A few times an hour)
media_inperson_t1	Talking in person
media_phone_t1	Talking on the phone
media_phonemessages_t1	Text messaging on the phone
media_chatapp_t1	Chatting on WhatsApp or other chat app
media_datingapp_t1	Chatting on a dating app
media_email_t1	E-mailing
media_videochat_t1	Video-chatting
media_facebook_passive_t1	Passively browsing content on Facebook
media_facebook_active_t1	Liking, posting, commenting, or sharing on Facebook
media_instagram_passive_t1	Passively browsing content on Instagram
media_instagram_active_t1	Liking, posting, commenting, or sharing on Instagram
media_twitter_passive_t1	Passively browsing content on Twitter
media_twitter_active_t1	Liking, posting, commenting, or sharing on Twitter

Changes in Routine

The following items were taken from the Routine survey of the COVID sensing study: https://covid19.ut-wcwh.org/

change_routine_1_t1	Did you follow a daily routine in the last 7 days?
	Rating scale: 1 (Absolutely not); 2 (Rarely); 3 (Sometimes); 4 (Mostly); 5 (Always)
	To what degree have you:
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
change_routine_2_t1	Been using masks while going out?
change_routine_3_t1	Practiced other preventative measures (e.g. washing hands)?
	To what degree has the coronavirus outbreak affected your:
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
change_routine_4_t1	Travel plans?
change_routine_5_t1	Education or the education of family members living with you?
change_routine_6_t1	Daily routine?
change_routine_7_t1	Work patterns?
change_routine_8_t1	Social life?
change_routine_9_t1	Living arrangements?
change_routine_10_t1	How much has the cancellation of important events (such as graduation, prom, vacation, etc.) in your life been difficult for you?
	Rating scale: 1 (Not at all); 2 (Slightly); 3 (Moderately); 4 (Very); 5 (Extremely)
change_routine_11_t1	In the last week, to what degree have you been involved in panic buying (including hoarding and buying excessive amounts)?
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)

Coronavirus Exposure

The following items were taken from the Coronavirus survey of the COVID sensing study: https://covid19.ut-wcwh.org/

corona_exposure_1_t1	Have you been suspected of having coronavirus/COVID-19 infection?
	Select one: 1 (Yes, positive test); 2 (Yes, medical diagnosis, but no test); 3 (Yes, possible symptoms, but no diagnosis by doctor); 4 (No)
corona_exposure_2_t1	Have you been exposed to someone likely to have coronavirus/COVID-19? Please check all that apply.
	Multiple response: 1 (Yes, someone with a positive test [If yes, how many?]); 2 (Yes, someone with a medical diagnosis, but no test [If yes, how many?]); 3 (Yes, someone with possible symptoms, but no diagnosis by doctor [If yes, how many?]); 4 (No)
corona_exposure_2_test_t1	*Open answer format if corona_exposure_2_t1 = 1 (Yes, someone with a positive test [If yes, how many?])*
corona_exposure_2_diagnosis_t1	*Open answer format if corona_exposure_2_t1 = 2 (Yes, someone with a medical diagnosis, but no test [If yes, how many?])*

corona_exposure_2_symptoms_t1	*Open answer format if corona_exposure_2_t1 = 3 (Yes, someone with possible symptoms, but no diagnosis by doctor [If yes, how many?])*
corona_exposure_3_t1	Are you living with someone likely to have coronavirus/COVID-19? Check all that apply.
	Multiple response: 1 (Yes, someone with a positive test); 2 (Yes, someone with a medical diagnosis, but no test); 3 (Yes, someone with possible symptoms, but no diagnosis by doctor); 4 (No)
corona_exposure_4_t1	Have any of the following happened to your family members because of the coronavirus/COVID-19? Check all that apply.
	Multiple response: 1 (Fallen ill physically [If yes, how many?]); 2 (Hospitalized [If yes, how many?]); 3 (Put into self-quarantine with symptoms [If yes, how many?]); 4 (Put into self-quarantine without symptoms (e.g. due to possible exposure) [If yes, how many?]); 5 (Passed away [If yes, how many?])
corona_exposure_4_ill_t1	*Open answer format if corona_exposure_4_t1 = 1 (Fallen ill physically [If yes, how many?])*
corona_exposure_4_hospitalized_t1	*Open answer format if corona_exposure_4_t1 = 2 (Hospitalized [If yes, how many?])*
corona_exposure_4_selfquarantine_symptoms_t1	*Open answer format if corona_exposure_4_t1 = 3 (Put into self-quarantine with symptoms [If yes, how many?])*
corona_exposure_4_selfquarantine_nosymptoms_t1	*Open answer format if corona_exposure_4_t1 = 4 (Put into self-quarantine without symptoms (e.g. due to possible exposure) [If yes, how many?])*
corona_exposure_4_passedaway_t1	*Open answer format if corona_exposure_4_t1 = 5 (Passed away [If yes, how many?])*

Emotional Impact

The following items were taken from the Coronavirus survey of the COVID sensing study: https://covid19.ut-wcwh.org/

	People often respond to major upheavals in very different ways. To what degree have you found this experience:
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
emo_impact_1_t1	Interesting?
emo_impact_2_t1	Annoying?
emo_impact_3_t1	Anxiety_provoking?
emo_impact_4_t1	Terrifying?
emo_impact_5_t1	Liberating?
emo_impact_6_t1	Exciting?
emo_impact_7_t1	Depressing?
emo_impact_8_t1	Boring?
	How worried have you been about:
	Rating scale: 1 (Not at all); 2 (Slightly); 3 (Moderately); 4 (Very); 5 (Extremely)
corona_worries_1_t1	Being infected?
corona_worries_2_t1	Friends or family being infected?
corona_worries_3_t1	Your mental/emotional health being influenced by coronavirus/COVID-19?
corona_positivechanges_t1	Has the coronavirus/COVID-19 pandemic in your area led to any positive changes in your life?
	Rating scale: 1 (None); 2 (Only a few); 3 (Some); 4 (A great deal)
corona_duration_t1	How much longer do you think the COVID-19 pandemic will last?
	Rating scale: 1 (One month); 2 (Two months); 3 (Three months); 4 (Four months); 5 (Five months); 6 (Six months to one year); 7 (One to two years); 8 (More than two years)

Social Impact

The following items were taken from the Coronavirus survey of the COVID sensing study: https://covid19.ut-wcwh.org/

	To what degree do you think the coronavirus will ultimately:
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
soc_impact_1_t1	Bring people together?
soc_impact_2_t1	Tear us apart?
soc_impact_3_t1	Have your in-person contacts with people outside of your home changed relative to before the coronavirus/COVID-19 pandemic in your area?
	Rating scale: 1 (None); 2 (A little); 3 (Moderately); 4 (A lot); 5 (A great amount)
soc_impact_4_t1	How hard do you find it to keep up your social contacts (friends, family, colleagues) during the ongoing coronavirus pandemic?
	Rating scale: 1 (Very easy); 2 (Somewhat easy); 3 (Neither easy nor difficult); 4 (Somewhat difficult); 5 (Very difficult)
soc_impact_5_t1	How stressful have the restrictions on leaving home been for you?
	Rating scale: 1 (Not at all); 2(Slightly); 3 (Moderately); 4 (Very); 5 (Extremely)
	In terms of your social world, to what degree has the COVID-19 outbreak influenced how socially connected you feel with:
	Rating scale: 1 (Much less connected); 2 (A little less connected); 3 (About the same); 4 (A little more connected); 5 (Much more connected)
soc_connection_1_t1	Your family?
soc_connection_2_t1	Your friends?

soc_connection_3_t1	The people in your workplace or school (including co-workers, customers, clients, and students)?
soc_connection_4_t1	Your neighbors?
soc_connection_5_t1	Your city?
soc_connection_6_t1	Your country?
soc_connection_7_t1	The world?
	Despite your best intentions, to what degree might you avoid physical contact with:
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
contact_avoidance_1_t1	People in the medical profession?
contact_avoidance_2_t1	Asians?
contact_avoidance_3_t1	Homeless people?
contact_avoidance_4_t1	Service workers (e.g. waiters, bus drivers, cleaning staff, etc.)?
contact_avoidance_5_t1	Europeans?
contact_avoidance_6_t1	People from Mexico and Central America?
contact_avoidance_7_t1	Friends and neighbors?

Risk Perceptions

The following items were taken from the EMOTIONS-CORONA study: https://osf.io/6kzx3/

	Rating scale: 1 (Very unlikely) – 6 (Very likely)
perceived_risk_1_t1	How likely do you think you are to contract the coronavirus?
perceived_risk_2_t1	How likely do you think your family is to contract the coronavirus?
perceived_risk_3_t1	How likely do you think close others that are not your family (e.g., close friends, partner) are to contract the coronavirus?
perceived_risk_4_t1	How detrimental is the virus to society as a whole (e.g. politically, economically, socially)?
	Rating scale: 1 (Not detrimental at all); 6 (Very detrimental)

Policy Evaluations

The following items were taken from the EMOTIONS-CORONA study: https://osf.io/6kzx3/

	A number of measures have already been implemented or could be implemented potentially to reduce the spread of the coronavirus. Please assess how useful you (would) find their implementation.
	Rating scale: 1 (Not reasonable at all) – 6 (Extremely reasonable)
policy_eval_1_t1	Cancellation of public events
policy_eval_2_t1	Cancellation of private events
policy_eval_3_t1	Stopping of public transport (bus, train)
policy_eval_4_t1	Stopping of air traffic
policy_eval_5_t1	Closure of universities and colleges
policy_eval_6_t1	Closure of day-care centres and kindergartens
policy_eval_7_t1	Closure of schools
policy_eval_8_t1	Closure of nightclubs and bars
policy_eval_9_t1	Closure of restaurants and cafés
policy_eval_10_t1	Closure of museums, zoos, parks, swimming pools, sports facilities
policy_eval_11_t1	Closure of retail stores (with the exception of supermarkets, drugstores and pharmacies)
policy_eval_12_t1	Implementation of travel bans
policy_eval_13_t1	Imposition of home quarantine for everyone, including appropriate curfews (everyone must stay at home and may only leave the house for shopping, work, visits to the doctor or care of relatives)
policy_eval_14_t1	Imposition of home quarantine including complete curfews (without exceptions for most of the population)
policy_eval_15_t1	Rationing

Demographic Information

The following items were taken from the Demographics survey of the COVID sensing study: https://covid19.ut-wcwh.org/

demog_ses_t1	Think of this ladder as showing where people stand in the United States. At the top of the ladder are the people and families who are the best off – those who have the most money, the most education, and the most respected jobs. At the bottom are people and families who are the worst off – who have the least money, the least education, and the least respected jobs. The higher you are up on this ladder, the closer you are to the people at the very top; the lower you are, the closer you are to the people at the very bottom. Where would you place yourself on this ladder? Please mark the rung that represents where you think you stand, relative to other people in the United States.
	Rating scale: 1 – 10
demog_healthinsurance_t1	Do you have health insurance?
	Select one: 1 (Yes, military); 2 (Yes, employer-sponsored); 3 (Yes, individual); 4 (Yes, Medicare); 5 (Yes, Medicaid or CHIP); 6 (Yes, other); 7 (No)
demog_mentalhealth_pre_corona_t1	How would you rate your overall mental/emotional health before the coronavirus/COVID-19 pandemic in your area?
	Select one: 1 (Poor); 2 (Fair); 3 (Good); 4 (Very good); 5 (Excellent)
demog_physicalhealth_pre_corona_t1	How would you rate your overall physical health before the coronavirus/COVID-19 pandemic in your area?

	Select one: 1 (Poor); 2 (Fair); 3 (Good); 4 (Very good); 5 (Excellent)
demog_healthconditions_t1	Has a health professional ever told you that you had any of the following health conditions? Please check all that apply.
	Multiple response: 1 (Seasonal Allergies); 2 (Asthma or other lung problems); 3 (Heart problems); 4 (Kidney problemes); 5 (Immune disorder); 6 (Diabetes or high blood sugar); 7 (Cancer); 8 (Arthiritis); 9 (Frequent or very bad headaches); 10 (Epilepsy or seizures); 11 (Serious stomach or bowel problems); 12 (Serious acne or skin problems); 13 (Emotional or mental health problems such as depression or anxiety); 14 (Problems with alcohol or drugs)
demog_ppl_household_t1	How many people currently live in your household (including yourself)?
	Open answer format
demog_relationship_ppl_household_t1	What is your relationship to the people you live with? Please select all that apply.
	Multiple response: 1 (Roommate(s)); 2 (Friend(s)); 3 (Life partner/significant other); 4 (Parent(s)); 5 (Kids); 6 (Other family members)

Pandemic Predictions

All items were self-created.

	Select one: 1 (Greatly decrease); 2 (Slightly decrease); 3 (Stay the same); 4 (Slightly increase); 5 (Greatly increase)
pand_pred_1_t1	Over the next month, I think that the number of new daily COVID-19 cases will
pand_pred_2_t1	Over the next month, I think that the number of daily deaths due to COVID-19 will
pand_pred_3_t1	To what degree do you think that the new variants of the virus (e.g. B.1.1.7) will exacerbate the pandemic?
	Select one: 1 (None at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
pand_pred_4_t1	Over the next month, I think that the restrictions (e.g., stay at home orders, closure of non-essential stores and facilities) in the US will
	Select One: 1 (Become a lot looser); 2 (Become a little looser); 3 (Stay the same); 4 (Become a little stricter); 5 (Become a lot stricter)
pand_pred_5_t1	One year from now, what percent of the US population do you think will be vaccinated?
	Open answer format

Life Orientations Test – Revised (LOT-R)

Scheier, M. F., Carver, C. S., & Bridges, M. W. (1994). Distinguishing optimism from neuroticism (and trait anxiety, self-mastery, and self-esteem): A reevaluation of the Life Orientation Test. *Journal of Personality and Social Psychology, 67*(6), 1063–1078. https://doi.org/10.1037/0022-3514.67.6.1063

	Please be as honest and accurate as you can throughout. Try not to let your response to one statement influence your responses to other statements. There are no "correct" or "incorrect" answers. Answer according to your own feelings, rather than how you think "most people" would answer.
	Select One: 0 (Strongly disagree); 1 (Disagree); 2 (Neutral); 3 (Agree); 4 (Strongly agree)
lot_1_t1	In uncertain times, I usually expect the best.
lot_2_t1	It's easy for me to relax.
lot_3_t1	If something can go wrong for me, it will.
lot_4_t1	I'm always optimistic about my future.
lot_5_t1	I enjoy my friends a lot.
lot_6_t1	It's important for me to keep busy.
lot_7_t1	I hardly ever expect things to go my way.
lot_8_t1	I don't get upset too easily.
lot_9_t1	I rarely count on good things happening to me.
lot_10_t1	Overall, I expect more good things to happen to me than bad.

Onboarding Survey

Mar 3 2021

All items were self-created.
All items assessed in the onboarding survey have an "_onboarding"-suffix.

Variable Name	Description
selftrack_option_onboarding	Please indicate which option you want to choose:
	Select one: 1 (Option 1: Smartphone App); 2 (Option 2: Handwritten Journal)

If Option 1: Smartphone App

	First, the IRB-approved consent form was displayed.
consent_1_onboarding	Please indicate your consent below:
	Select one: 1 (I DO agree to install a smartphone application and respond to a few queries/day for a 4-week period.); 2 (I DO NOT agree to install a smartphone application and respond to a few queries/day for a 4-week period. If you select this option, you will be redirected to the handwritten journal.)
	The item consent_2_onboarding was displayed if consent_1_onboarding = 1 (I DO agree to install a smartphone application and respond to a few queries/day for a 4-week period.)
consent_2_onboarding	Please indicate your consent below:

	Select one: 1 (I DO agree that my data can be used by the study investigators for research purposes. For students enrolled at the University of Texas at Austin, this will involve the study investigators linking my data to other data being collected by the University of Texas, including data on my performance in PSY 301 and my use of the Canvas system.); 2 (I DO NOT agree that my data can be used for research purposes. If you select this option, you will be redirected to the handwritten journal option.)
signature_onboarding[1]	Study Participant or Legal Representative Electronic Signature:
	Open answer format
	If consent_1_onboarding = 2 (I DO NOT agree to install a smartphone application and respond to a few queries/day for a 4-week period. If you select this option, you will be redirected to the handwritten journal.) or consent_2_onboarding = 2 (I DO NOT agree that my data can be used for research purposes. If you select this option, you will be redirected to the handwritten journal option.), participants were redirected to the handwritten journal option (see section "If Option 2: Handwritten Journal"). ***Thus, the following questions (all items until section "If Option 2: Handwritten Journal") were only displayed if participants chose the smartphone app option.***
Phone Information	
phone_type_onboarding	What type of phone do you have?
	Select one: 1 (iPhone); 2 (Android); 3 (Other)
phone_type_specification_onboarding	*Open answer format if phone_type_onboarding = 3 (Other)*
	The item iPhone_model_onboarding was displayed if phone_type_onboarding = 1 (iPhone).
iPhone_model_onboarding	What iPhone model do you have? This information can be found under Settings → General → About → Model Name.
	Select One: 1 (iPhone 12); 2 (iPhone 12 Mini); 3 (iPhone 12 Pro); 4 (iPhone 12 Pro Max); 5 (iPhone 11); 6 (iPhone 11 Pro); 7 (iPhone 11 Pro Max); 8 (iPhone SE (2nd generation)); 9 (iPhone XS); 10 (iPhone XS Max); 11 (iPhone XR); 12 (iPhone X); 13 (iPhone 8); 14 (iPhone 8 Plus); 15 (iPhone 7 Plus); 16 (iPhone 7); 17 (Other)
iPhone_model_specification_onboarding	*Open answer format if iPhone_model_onboarding = 17 (Other)*
	The item android_model_onboarding was displayed if phone_type_onboading = 2 (Android).
android_model_onboading	Which Android model do you have? This information can be found under Settings → About phone → Phone name.
	Open answer format
phone_os_onboading	Which operating system does your phone use? (ex: iOS13, Android 10, or other etc…) Note for iPhones: This information can be found under Settings → General → About → Software Version. Note for Androids: This information can be found under Settings → About phone → Software info.
	Open answer format
	The item email_option_consent_onboarding was displayed if the participant selected a type of phone or operating system that does not support the EARS app (i.e., other type of phone, Anroid 5 or earlier, iOS 11 or 12).
email_option_consent_onboarding	Your device does not support the EARS app. Would you like to receive your daily surveys through email? You will receive 8 emails per day, each with a different survey link. You would need to complete these surveys in the 2 hour time frame you receive them. You will not need to download the EARS app. {HERE} is some more information about self-tracking via email. If you have any questions please contact us at psy301selftrackingassignment@gmail.com.
	Select One: 1 (I DO agree to have my surveys emailed to me daily); 2 (I DO NOT agree to have my surveys emailed to me daily, I will complete the journaling option)
	The item email_option_address_onboarding was displayed if email_option_consent_onboarding = 1 (I DO agree to have my surveys emailed to me daily).
email_option_address_onboarding	What is your preferred email address that you would like us to use to send the surveys?
	Open answer format
	If email_option_consent_onboarding = 2 (I DO NOT agree to have my surveys emailed to me daily, I will complete the journaling option), participants were redirected to the handwritten journal option (see section "If Option 2: Handwritten Journal").
EARS Installation & Overview	
	Thank you for consenting to participate in our study! Now it's time to install the EARS app on your phone. 1. Download the app "EARS: Mobile Sensing" from the App Store (for iPhone) or the Play Store (for Android). Please do NOT download the app between 10pm and 12am. If you do, you may experience problems receiving notifications from EARS. 2. Use the following code when prompted: {installation code} 3. If you have any questions please contact us at psy301selftrackingassignment@gmail.com. 4. Read {THIS} for more information about the EARS app and for installation instructions.
	If you're already on your phone, click this button to copy + paste the code: Copy Installation Code The installation code will only work once, so do not share it with anyone, and be sure to copy it exactly.

[1] For privacy reasons, we will not provide this variable to collaborators.

email_instructions_onboarding[2]	Enter your email below if you'd like these installation instructions emailed to you (optional):
	Open answer format
	In the following, participants were instructed on how to use the EARS app. These instructions are not provided here for the sake of brevity.
If Option 2: Handwritten Journal	
	Thank you for choosing the Handwritten Journal Option of this assignment. You can find journal templates {HERE}. Remember that you will need to complete a journal entry at least 4 times per day for at least 14 days. You can find more detailed information about the handwritten journal {HERE}. If you have any questions please contact us at psy301selftrackingassignment@gmail.com.

STEP 2: DAILY EXPERIENCE REPORT

Mar 4 – Apr 1 2021

Variable Name	Description
	Participants received separate instructions for Step 2 of Writing Assignment 2. The Step 2 instructions included the information provided in the section "Overview of Writing Assignment #2 (WA2)" and further information about the app. For the sake of brevity, these detailed instructions have been excluded from this codebook. If you are interested in the full-length instructions, please do not hesitate to contact lara.kroencke@uni-muenster.de.

Daily Survey

Most items in the daily survey were force response items, unless indicated otherswise ("Leave blank to skip question").
All items in the daily survey were self-created.
All items assessed in the daily survey have a "_daily"-suffix.

Variable Name	Description
Corona Vaccine-Related Items	
	The following questions were only displayed on Mar 10, 2021.
corona_vacc_daily	Have you gotten the COVID-19 vaccine yet?
	Select one: 1 (Yes); 2 (No); 0 (Skip question)
	The item corona_vacc_type_daily was displayed if corona_vacc_daily = 1 (Yes).
corona_vacc_type_daily	Which vaccine did you get?
	Select one: 1 (Moderna); 2 (Pfizer); 3 (Johnson & Johnson); 4 (I don't know); 0 (Skip question)
	The item first_dose_daily was displayed if corona_vacc_daily = 1 (Yes).
first_dose daily	When did you get your first dose of the COVID-19 vaccine?
	Select one: 1 (Please enter the date (mm/dd/yyyy); 2 (I don't remember); 0 (Skip question)
first_dose_specification_daily	*Open answer format if first_dose_daily = 1 (Please enter the date (mm/dd/yyyy))*
	The item second_dose_daily was displayed if corona_vacc_daily = 1 (Yes) and corona_vacc_type_daily ≠ 3 (Johnson & Johnson).
second_dose_daily	When did you get your second dose of the COVID-19 vaccine?
	Select one: 1 (Please enter the date (mm/dd/yyyy); 2 (I don't remember); 3 (I haven't gotten the second dose yet); 0 (Skip question)
second_dose_specification_daily	*Open answer format if first_dose_date_daily = 1 (Please enter the date (mm/dd/yyyy))*
	The following questions were shown starting on Mar 11, 2021.
corona_vacc_yesterday_daily	Yesterday, did you get the COVID-19 vaccine?
	Select one: 1 (Yes); 2 (No); 0 (Skip question)
	The iitem corona_vacc_type_daily was displayed if corona_vacc_yesterday_daily = 1 (Yes).
corona_vacc_type_daily	Which vaccine did you get?
	Select one: 1 (Moderna); 2 (Pfizer); 3 (Johnson & Johnson); 4 (I don't know); 0 (Skip question)
	The item corona_vacc_dose_daily was displayed if corona_vaccine_yesterday_daily = 1 (Yes) and corona_vaccine_type_daily ≠ 3 (Johnson & Johnson).
corona_vacc_dose_daily	Was it your first or second dose of the vaccine?
	Select one: 1 (First dose); 2 (Second dose); 0 (Skip question)
Spring Break-Related Items	

[2] For privacy reasons, we will not provide this variable to collaborators.

spring_break_activities_daily *This item was only displayed on Mar 22 and 23, 2021.*	During Spring Break, I engaged in the following activities (check all that apply):
	Multiple response: 1 (Went on vacation in the US (except visiting family)); 2 (Went on vacation abroad (except visiting family)); 3 (Traveled to visit my family in the US); 4 (Traveled to visit my family abroad); 5 (Attended a Spring Break party with few attendees); 6 (Attended a Spring Break party with many attendees); 7 (None of the above); 0 (Skip question)
spring_break_corona_daily *This item was only displayed on Mar 22 and 23, 2021.*	To what degree did the coronavirus outbreak affect your Spring Break experience?
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)[3]; 0 (Skip question)
Corona-Related Items	
corona_test_daily	Yesterday, were you tested for COVID-19?
	Select one: 1 (Yes); 2 (No); 0 (Skip question)
corona_diagnosis_daily	Yesterday, were you diagnosed with COVID-19?
	Select one: 1 (Yes); 2 (No); 0 (Skip question)
corona_symptoms_daily	Yesterday, did you exhibit any COVID-19-like symptoms? Please check all that apply.
	Multiple response: 1 (Tiredness); 2 (Fever); 3 (Dry cough); 4 (Wet cough); 5 (Bloody cough); 6 (Shortness fo breath, rapid breathing); 7 (Abdominal pain); 8 (Diarrhea); 9 (Vomiting); 10 (Headache); 11 (Loss of smell); 12 (Loss of taste); 13 (Other); 14 (None of the above); 0 (Skip question)
corona_mask_daily *This item was added on Mar 12, 2021.*	Yesterday, did you wear a mask when you interacted with others in person?
	Select one: 1 (No, I did not); 2 (Yes, some of the time); 3 (Yes, most of the time); 4 (Yes, all of the time); 5 (I did not interact with others in person); 0 (Skip question)
corona_mask_approval_daily *This item was only displayed on Mar 12, 2021.*	How much do you approve/disapprove of the lifting the mask mandate in Texas?
	Select one: 1 (Strongly disapprove), 2 (Disapprove); 3 (Slightly disapprove); 4 (Neither approve nor disapprove); 5 (Slightly approve); 6 (Approve); 7 (Strongly approve); 0 (Skip question)
corona_mask_influence_daily *This item was only displayed on Mar 22 and 29, 2021.*	During the PAST WEEK, which of the following influenced your decision to wear a mask or not wear a mask? Please check all that apply.
	Multiple response: 1 (I felt pressure to go along with what everyone else was doing); 2 (I wanted to follow established COVID-19-related guidelines); 3 (I felt that it was the right thing to do); 4 (I acted out of habit); 5 (I wanted to avoid catching the virus); 6 (I wanted to avoid spreading the virus); 7 (I was exercising my personal rights and freedoms); 8 (None of the above, other), 0 (Skip question)

interact_online_daily	Yesterday, how many people did you interact with ONLINE (Leave blank to skip question):
	Multiple response: 1 (Family members:); 2 (Close contacts who are not family (e.g., friends, roommates, significant other):); 3 (Acquaintances (e.g., classmates, co-workers, strangers):)
interact_online__family_daily	*Open answer format if interact_online_daily = 1 (Family members:)*
interact_online_close_contacts_daily	*Open answer format if interact_online_daily = 2 (Close contacts who are not family (e.g., friends, roommates, significant other)☺*
interact_online_acquaintances_daily	*Open answer format if interact_online_daily = 3 (Acquaintances (e.g., classmates, co-workers, strangers):)*

Values

Skimina, E., Cieciuch, J., & Revelle, W. (2021). Between-and within-person structures of value traits and value states: Four different structures, four different interpretations. *Journal of Personality*. https://doi.org/10.1111/jopy.12627

[3] This response option was only shown in the email version.

	Rating scale: 1 (Strongly disagree); 2 (Disagree); 3 (Slightly disagree); 4 (Neither agree nor disagree); 5 (Slightly agree); 6 (Agree); 7 (Strongly agree); 0 (Skip question)
values_1_daily	Yesterday, it was important to me to be better at something than others.
values_2_daily	Yesterday, it was important to me to gain some advantage for myself.
values_3_daily	Yesterday, it was important to me to avoid danger.
values_4_daily	Yesterday, it was important to me to do what others expected.
values_5_daily	Yesterday, it was important to me to help people I care about.
values_6_daily	Yesterday, it was important to me to help someone I did not know.
values_7_daily	Yesterday, it was important to me to understand something or form an opinion on my own.
values_8_daily	Yesterday, it was important to me to experience something new or exciting
values_9_daily	Yesterday, it was important to me to enjoy myself.
Politics-Related Items	
political_orientation_daily	Yesterday, I would describe myself as:
	Select one: 1 (Extremely liberal); 2 (Liberal); 3 (Slightly liberal); 4 (Neither liberal nor conservative); 5 (Slightly conservative); 6 (Conservative); 7 (Extremely conservative); 0 (Skip question)
Feedback Report-Related Items	
feedback_accuracy_week 2_daily *This item was only displayed on Mar 24, 2020.*	How accurate does your feedback report from last week (Week 2) seem to you?
	Rating scale: 1 (Not at all accurate); 2 (A little accurate); 3 (Somewhat accurate); 4 (Very accurate); 5 (I haven't looked at the feedback report yet.); 0 (Skip question)
feedback_accuracy_week 3_daily *This item was only displayed on Mar 29, 2020.*	How accurate does your feedback report from last week (Week 3) seem to you?
	Rating scale: 1 (Not at all accurate); 2 (A little accurate); 3 (Somewhat accurate); 4 (Very accurate); 5 (I haven't looked at the feedback report yet.); 0 (Skip question)

EMA Survey

All items in the daily survey were force response items.
Most items were self-created, unless indicated otherwise.
All items assessed in the EMA survey have an "_ema"-suffix.

Variable Name	Description
Momentary Context	
	For the following questions, please describe your behavior during the PAST HOUR…
momentary_context_place_ema	During the PAST HOUR, I spent time in the following place(s) (check all that apply):
	Multiple response: 1 (Bar, party); 2 (Cafe, restaurant); 3 (Friend's house); 4 (University campus); 5 (Fraternity, sorority house); 6 (Gym); 7 (Home); 8 (Library); 9 (Religious facility); 10 (Store, mall); 11 (Work place (not your home office)); 12 (Vehicle); 13 (Outdoors, park, or in nature); 14 (None of the above, other); 0 (Skip question)
momentary_context_place_specification_ema	*Open answer format if momentary_context_place_ema = 14 (None of the above, other)*
momentary_context_inperson_interact_ema	During the PAST HOUR, how many people outside your household did you interact with IN-PERSON? (Leave blank to skip question):
	Open answer format
momentary_context_people_ema	During the PAST HOUR, I spent time with the following people in person (check all that apply):
	Multiple response: 1 (Classmates, students); 2 (Co-workers); 3 (Family); 4 (Friends); 5 (Roommates); 6 (Significant other); 7 (Strangers); 8 (No one, was alone); 9 (None of the above, other); 0 (Skip question)
momentary_context_people_specification_ema	*Open answer format if momentary_context_people_ema = 9 (None of the above, other)*
momentary_context_activity_ema	During the PAST HOUR, I spent time doing the following activities (check all that apply):
	Multiple response: 1 (Attending meetings or classes virtually); 2 (Studying, preparing for an exam); 3 (Working at a job); 4 (Browsing the internet); 5 (Using social media); 6 (Commuting, traveling); 7 (Doing household chores, running errands); 8 (Exercising, physical activity, sports); 9 (Socializing); 10 (Watching TV, movies); 11 (Reading); 12 (Listening to music); 13 (Playing internet games); 14 (Creative activities (e.g., playing a musical instrument, singing, painting, photography)); 15 (Resting, napping, doing nothing); 16 (Learning about COVID-19); 17 (Learning about political news); 18 (Eating, drinking); 19 (None of the above, other); 0 (Skip question)
momentary_context_activity_specification_ema	*Open answer format if momentary_context_activity_ema = 19 (None of the above, other)*
	The item momentary_context_social_media_ema was only displayed if momentary_context_activity_ema = 5 (Using social media).
momentary_context_social_media_ema	During the PAST HOUR, how much did you use social media?
	Select one: 1 (1-15 minutes); 2 (16-30 minutes); 3 (31-45 minutes); 4 (46-60 minutes); 0 (Skip question)
self_certainty_ema	During the PAST HOUR, I had a clear sense of who I am.

	Select one: 1 (Strongly disagree); 2 (Disagree); 3 (Slightly disagree); 4 (Neither agree nor disagree); 5 (Slightly agree); 6 (Agree); 7 (Strongly agree); 0 (Skip question)
momentary_context_interaction_ema	During the PAST HOUR, did you interact with others? A social interaction can be defined as an exchange between two or more people that lasts at least 5 minutes, including interactions on a smartphone or computer (e.g., talking on the phone, texting, chatting, social media).
	Select one: 1 (Yes); 2 (No)
If Social Interaction	
The following items were only displayed if momentary_context_interaction_ema = 1 (Yes).	
soc_interact_mode_ema	I spent time interacting with others by (check all that apply):
	Multiple response: 1 (Talking in person); 2 (Talking on the phone); 3 (Texting (e.g., SMS, Whatsapp)); 4 (Chatting on a dating app); 5 (Emailing); 6 (Video-chatting); 7 (Social media); 8 (None of the above, other); 9 (Skip question)
soc_interact_mode_specification_ema	*Open answer format if soc_interact_mode_ema = 8 (None of the above, other)*
soc_interact_partner_ema[4]	I was interacting with the following people (check all that apply):
	Multiple response: 1 (Classmates, students); 2 (Co-workers); 3 (Family); 4 (Friends); 5 (Roommates); 6 (Significant other); 7 (Strangers); 8 (None of the above, other); 0 (Skip question)
soc_interact_partner_specification_ema[4]	*Open answer format if soc_interact_partner_ema = 8 (None of the above, other)*
soc_interact_partner_gender_ema[4] *This item was added on Mar 8, 2021.*	My interaction partner(s) were (check all that apply):
	Multiple response: 1 (Women); 2 (Men); 3 (I'm unaware of their gender); 4 (None of the above, unknown, other); 0 (Skip question)
soc_interact_partner_gender_specification_ema[4]	*Open answer format if soc_interact_partner_gender_ema = 4 (None of the above, unknown, other)*
soc_interact_partner_ethnicity_ema *This item was added on Mar 8, 2021.*	My interaction partner(s) were (check all that apply):
	Multiple response: 1 (White people); 2 (Black people); 3 (Latinx people); 4 (Asian people); 5 (I'm unaware of their race/ethnicity); 6 (None of the above, other); 0 (Skip question)
soc_interact_partner_ethnicity_specification_ema	*Open answer format if soc_interact_partner_ethnicity_ema = 6 (None of the above, other)*
soc_interact_topic_ema	We talked about the following topics (check all that apply):
	Multiple response: 1 (Classes, university); 2 (Leisure activities); 3 (Work); 4 (Other people) 5 (Personal issues); 6 (COVID-19); 7 (Political news); 8 (None of the above, other); 0 (Skip question)
soc_interact_topic_specification_ema	*Open answer format if soc_interact_topic_ema = 8 (None of the above, other)*
	Rating scale: 1 (Not at all); 2 (A little bit); 3 (Quite a bit); 4 (Very much); 0 (Skip question)
soc_interact_positive_self_ema	I felt positively towards my interaction partner(s).
soc_interact_positive_others_ema	My interaction partner(s) felt positively towards me.
soc_interact_self_verification_ema *This item was added on Mar 4, 2021.*	My interaction partner(s) "got" or understood me.
soc_interact_shared_reality_ema	My interaction partner(s) and I shared the same thoughts and feelings about things.
soc_interact_support_ema	My interaction partner(s) supported me emotionally.
soc_interact_coruminationema	To what degree did you and/or your interaction partner(s) talk about being in a bad mood and/or something that is bothering one or all of you?
	The items soc_interact_reappraisal_ema and soc_interact_cobrooding_ema were only displayed if soc_interact_corumination_ema = 2 (A little bit), 3 (Quite a bit), or 4 (Very much).
soc_interact_reappraisal_ema	The other's point of view helped us to see things in a different light.
soc_interact_cobrooding_ema	We complained or ranted about the same things over and over again.
If No Social Interaction	
The following items were only displayed if momentary_context_interaction_ema = 2 (No).	

[4] Due to an error in the data collection, all data that was collected on or before March 8, 2021 had to be deleted. Please use the corrected variables: soc_interact_partner_ema_corrected, soc_interact_partner_specification_ema_corrected, soc_interact_partner_gender_ema_corrected, soc_interact_partner_gender_specification_ema_corrected

	The item activity_selected_choice_ema was only displayed if participants selected multiple options when responding to the item momentary_context_activity_ema. In this case, the selected options were carried forward.
activity_selected_choice_ema	You already told us which activities you engaged in during the PAST HOUR. Now we would like to know what activity you spent MOST of your time doing. Please choose one.
	*Select one: *only those options that were chosen for momentary_context_activity_ema**
	The following questions referred to the activity that participants spent most of their time doing during the past hour (i.e., their response to the item momentary_context_activity_ema or – if they selected multiple options – to the item activity_selected_choice_ema). If the activity was "Skip question", the following questions were not displayed, and the participants were forwarded to the section "Momentary Well-Being".
	To avoid redundancy, the item activity_duration_ema was not displayed if the activity was "Using social media".
activity_duration_ema	How long did you engage in the activity?
	Select one: 1 (1-15 minutes); 2 (16-30 minutes); 3 (31-45 minutes); 4 (46-60 minutes); 0 (Skip question)
	Rating scale: 1 (Not at all); 2 (A little bit); 3 (Quite a bit); 4 (Very much), 0 (Skip question)
activity_enjoyment_ema	I enjoyed the activity.
activity_fit_ema	The activity suits my personality.
	The following questions about participants' activities or thoguhts were added on Mar 8, 2021.
activity_routine_ema	The activity provided a good break from my day to day routine.
activity_stimulation_ema	During the activity, I experienced something new or exciting.
thoughts_ema	The following question(s) concern your thoughts just before you started to fill out this questionnaire. **Before you started the survey, were you thinking about something other than what you were doing?** [For example, you are thinking about what you are doing when your thoughts are related to the current task (e.g., finding your way to a place you haven't been before or following the plot of a thrilling movie). You are not thinking about what you are doing when, for example, you are thinking about what you will be doing next week or when your mind wanders freely while brushing your teeth.]
	Select one: 1 (Yes); 2 (No); 3 (I'm not sure); 0 (Skip question)
	The following questions were only displayed if thoughts_ema = 1 (Yes).
thoughts_timeline_ema	Which of the following were you thinking about?
	Select one: 1 (The past); 2 (The present); 3 (The future); 4 (I'm not sure); 0 (Skip question)
thoughts_direction_ema	Who were you thinking about?
	Select one: 1 (Myself); 2 (Another person/other people); 3 (I wasn't thinking about anyone); 4 (I'm not sure); 5 (Myself and another person/other people)[5]; 0 (Skip question)
	The item thoughts_metalizing_ema was only displayed if thoughts_direction _ema = 1 (Myself) or 2 (Another person/other people).
thoughts_mentalizing_ema	Were you thinking about what's on your own or someone else's mind? For example what you an/or someone else believes, wants, or feels?
	Select One: 1 (Yes); 2 (No); 3 (I'm not sure); 0 (Skip question)
thoughts_type_ema	Which of the following best describes the nature of your thinking?
	Answer format: 1 (I was daydreaming or fantasizing about something); 2 (I let my mind freely wander to whatever came up); 3 (I was generating a creative idea); 4 (I was worrying about something); 5 (None of the above, other), 6 (I'm not sure); 0 (Skip question)
thoughts_control_ema	Were you actively directing your thoughts? Please click {HERE} if you would like to see examples related to this question.
	Select one: 1 (Not at all); 2 (A little bit); 3 (Quite a bit); 4 (Very much); 5 (I'm not sure); 0 (Skip question)
	The following questions were only displayed if thoughts_ema = 2 (No).
activity_attention_ema	How much attention do you normally need to successfully perform what you did just before you started to fill out this questionnaire?
	Select one: 1 (Almost no attention); 2 (Occasional attention); 3 (Attention for the most part); 4 (Constant attention); 5 (I'm not sure); 0 (Skip question)
activity_difficulty_ema	How difficult is this activity for you?
	Select one: 1 (Very easy); 2 (Relatively easy); 3 (Neither easy nor difficult); 4 (Relatively difficult), 5 (Very difficult); 6 (I'm not sure); 0 (Skip question)
activity_importance_ema	How important is this activity for achieving your personal goals?
	Select one: 1 (Unimportant); 2 (Relatively unimportant); 3 (Neither unimportant nor important); 4 (Relatively important); 5 (Very important); 6 (I'm not sure); 0 (Skip question)

Momentary Well-Being

The following items were adopted from:
Richter D., Rohrer J., Metzing M., Nestler W., Weinhardt M., & Schupp, J. (2017). SOEP Scales Manual (updated for SOEP-Core v32.1). SOEP Survey Papers 423, Series C. https://www.diw.de/documents/publikationen/73/diw_01.c.571151.de/diw_ssp0423.pdf

	For the following questions, please describe how you are feeling RIGHT NOW…
	Rating scale: 1 (Not at all); 2 (A little bit); 3 (Quite a bit); 4(Very much); 0 (Skip question)

[5] This response option was added to the app version of the survey on March 19, 2021 at 1:40pm and to the email version of the survey on March 21, 2021 at 11:40am.

momentary_wellbeing_angry_ema	RIGHT NOW, I am feeling angry.
momentary_wellbeing_worried_ema	RIGHT NOW, I am feeling worried.
momentary_wellbeing_happy_ema	RIGHT NOW, I am feeling happy.
momentary_wellbeing_sad_ema	RIGHT NOW, I am feeling sad.
momentary_wellbeing_stressed_ema	RIGHT NOW, I am feeling stressed.
momentary_wellbeing_lonely_ema	RIGHT NOW, I am feeling lonely.
momentary_wellbeing_accepted_ema	RIGHT NOW, I am feeling valued and accepted by others.

SENSING DATA

The following sensing data were assessed:
- Accelerometer
- GPS
- App usage
- Battery state
- Call status
- Light
- Music
Concrete features from these data are currently being extracted.

WEEKLY APP USAGE SURVEY (WEEK 1)

Mar 14, 2021

All items were self-created.

Variable Name	Description
	Don't forget to download your feedback report to your computer at the end of this survey! If you are self-tracking via journaling, you will not receive a feedback report. Once you submit the survey, you will not be able to access it again.
report_phoneactivity_w1	Phone Activity Report This report will help you complete Step 3 of the writing assignment, where you will reflect on your phone activity over the past weeks
	Select one: 1 (Click here to report on your phone activity (after which you'll get your weekly feedback).); 2 (Click here to report on your phone activity if you are not self-tracking via the EARS app or emails); 3 (Click here if you don't want to complete the activity report and go straight to your feedback.)

If Phone Activity Report

The following items were only displayed if report_phoneactivity_w1 = 1 (Click here to report on your phone activity (after which you'll get your weekly feedback).) or 2 (Click here to report on your phone activity if you are not self-tracking via the EARS app or emails).

phone_type_w1	Do you have an iPhone or Android?
	Select one: 1 (iPhone); 2 (Android); 3 (Other)

If iPhone

The following items were only displayed if phone_type_w1 = 1 (iPhone).

	Please follow the instructions {here} to view your app usage with the iPhone's Screentime tool.
appusage_access_iphone_w1	Are you able to access your app usage?
	Select one: 1 (Yes); 2 (No)
	The item no_access_iphone_w1 was only displayed if appusage_access_iphone_w1 = 2 (No).
no_access_iphone_w1	Please make sure to follow the instructions {here} to enable the iPhone's Screentime tool so that you can report on your app usage next week. If you still have issues or questions, please email psy301selftrackingassignment@gmail.com.
	Single choice: 1 (Ok, take me to the end of the survey.)
	If no_access_iphone_w1 = 1 (Ok, take me to the end of the survey), participants were forwarded to the end of survey text that displayed a link to their personal feedback report (if they were self-tracking via the EARS app or emails). After that, the survey ended.

If Android Or Other Phone Type

The following items were only displayed if phone_type_w1 = 2 (Android) or 3 (Other).

	Please follow the instructions {here} to view your app usage with the Android's Digital Wellbeing tool.
appusage_access_android_w1	Are you able to access your app usage?
	Select one: 1 (Yes); 2 (No)

	The item no_access_android_w1 was only displayed if appusage_access_android_w1 = 2 (No).
no_access_android_w1	Please make sure to follow the instructions {here} to enable the Android Digital Wellbeing tool so that you can report on your app usage next week. If you still have issues or questions, please email psy301selftrackingassignment@gmail.com.
	Single choice: 1 (Ok, take me to the end of the survey.)
	If no_access_android_w1 = 1 (Ok, take me to the end of the survey), participants were forwarded to the end of survey text that displayed a link to their personal feedback report (if they were self-tracking via the EARS app or emails). After that, the survey ended.

App Usage

	First, participants were instructed to report on their app usage from last week using their iPhone's Screentime tool or their phone's Digital Wellbeing tool, depending on the phone type they selected in phone_type_w1. For week 1, the relevant time frame was March 7, 2021 until March 13, 2021. ***Second, participants were told how to fill out the following items.*** ***Lastly, participants were informed that they would be redirected to their feedback report for the respective week once they had completed the app usage survey.***
	The app usage questions were completed separately per app. Participants could either indicate the number of hours and minutes they spent using this app over the past week (two separate variables), or select the response option "I do not have this app on my phone". Thus, three variables were created per app: hours_*app*_w1, minutes_*app*_w1, and no_*app*_w1. ***To avoid redundancy, this codebook exemplifies the three created variables for a placeholder (*app*) only.*** ***App usage was assessed for the following apps in this order (respective placeholder-substitute given in brackets): Facebook [facebook], Twitter [twitter], TikTok [tiktok], Instagram [instagram], Youtube [youtube], Reddit [reddit], Snapchat [snapchat].***
	How much time did you spend using the following apps over the PAST WEEK?
hours_*app*_w1	*Integer*
minutes_*app*_w1	*Integer*
no_*app*_w1	*Select one: 1 (I do not have this app on my phone.)*
	If phone_type_w1 = 1 (iPhone), app category usage over the past week was assessed additionally. ***Again, three variables were created per app catgory: hours_*appcategory*_w1, minutes_*appcategory*_w1, and no_*appcategory*_w1.*** ***To avoid redundancy, this codebook exemplifies the three created variables for a placeholder (*appcategory*) only.*** ***App category usage was assessed for the following app categories in this order (respective placeholder-substitute given in brackets): Reading & Reference (Information & Reading) [information], Social Networking (Social) [social], Productivity (Productivity & Finance) [productivity], Education [education], Health & Fitness [health], Entertainment [entertainment], Creativity [creativity], Games [games], Shopping & Food [shopping], Utilities [utilities], Other [other].***
	How much time did you spend using the following app categories over the PAST WEEK?
hours_*appcategory*_w1	*Integer*
minutes__*appcategory*_w1	*Integer*
no_*appcategory*_w1	*Select one: 1 (I do not see this app category.)*
	The item appusage_accuracy_w1 was displayed to all participants.
appusage_accuracy_w1	How accurate does your app usage from this past week seem to you?
	Select one: 1 (Not at all accurate); 2 (A little accurate); 3 (Somewhat accurate); 4 (Very accurate)
If report_phoneactivity_w1 = 1 (Click here to report on your phone activity (after which you'll get your weekly feedback).), participants were forwarded to the end of survey text which displayed a link to their personal feedback report. After that, the survey ended.	

If No Phone Activity Report

If report_phoneactivity_w1 = 3 (Click here if you con't want to complete the activity report and go straight to your feedback).), participants were forwarded to the end of survey text that displayed a link to their personal feedback report (if they were self-tracking via the EARS app or emails). After that, the survey ended.

WEEKLY APP USAGE SURVEY (Week 2 + 3)

Week 2: Mar 21, 2021; Week 3: Mar 28, 2021

All items were self-created.
All items assessed in the weekly app usage surveys in weeks 2 and 3 have an "_w[2,3]"-suffix, respectively.

Variable Name	Description
	If you are self-tracking via the app or emails, you will receive your feedback report at the end of this survey. Don't forget to download the report to your computer! If you are self-tracking via journaling, you will NOT receive feedback. Please note that once you submit the survey, you will not be able to access it again.

report_phoneactivity_w[2,3]	Phone Activity Report This report will help you complete Step 3 of the writing assignment, where you will reflect on your phone activity over the course of the writing assignment.
	Select one: 1 (Click here to report on your phone activity if you are self-tracking via the EARS app or emails.); 2 (Click here to report on your phone activity if you are self-tracking via journaling.); 3 (Click here if you do NOT want to complete the phone activity report and want to be redirected to the end of the survey.)
	The item selftrack_option_w[2,3] was only displayed if report_phoneactivity_w[2,3] = 3 (Click here if you do NOT want to complete the phone activity report and want to be redirected to the end of the survey).
selftrack_option_w[2,3]	How are you self-tracking during this assignment?
	Select one: 1 (Via the EARS app or emails); 2 (Via journaling)

If Phone Activity Report

The following items were only displayed if report_phoneactivity_w[2,3] = 1 (Click here to report on your phone activity if you are self-tracking via the EARS app or emails.) or 2 (Click here to report on your phone activity if you are self-tracking via journaling).

phone_type_w[2,3]	Do you have an iPhone or an Andoird?
	Select one: 1 (iPhone); 2 (Android); 3 (Other)

If iPhone

The following items were only displayed if phone_type_w[2,3] = 1 (iPhone).

	Please follow the instructions {here} to view your app usage with the iPhone's Screentime tool.
appusage_access_iphone_w[2,3]	Are you able to access your app usage?
	Select one: 1 (Yes); 2 (No)
	The item no_access_iphone_w[2,3] was only displayed if appusage_access_iphone_w[2,3] = 2 (No).
no_access_iphone_w[2,3]	Please make sure to follow the instructions {here} to enable the iPhone's Screentime tool so that you can report on your app usage next week. If you still have issues or questions, please email psy301selftrackingassignment@gmail.com.
	Single choice: 1 (Ok, take me to the end of the survey.)
	If no_access_iphone_w[2,3] = 1 (Ok, take me to the end of the survey), participants were forwarded to the end of survey text that displayed a link to their personal feedback report (if they were self-tracking via the EARS app or emails). After that, the survey ended.

If Android Or Other Phone Type

The following items were only displayed if phone_type_w[2,3] = 2 (Android) or 3 (Other).

	Please follow the instructions {here} to view your app usage with the Android's Digital Wellbeing tool.
appusage_access_andoird_w[2,3]	Are you able to access your asp usage?
	Select one: 1 (Yes); 2 (No)
	The item no_access_android_w[2,3] was only displayed if appusage_access_android_w[2,3] = 2 (No).
no_access_android_w[2,3]	Please make sure to follow the instructions {here} to enable the Android Digital Wellbeing tool so that you can report on your app usage next week. If you still have issues or questions, please email psy301selftrackingassignment@gmail.com.
	Single choice: 1 (Ok, take me to the end of the survey.)
	If no_access_android_w[2,3] = 1 (Ok, take me to the end of the survey), participants were forwarded to the end of survey text that displayed a link to their personal feedback report (if they were self-tracking via the EARS app or emails). After that, the survey ended.

App Usage

	First, participants were instructed to report on their app usage from last week using their iPhone's Screentime tool or their phone's Digital Wellbeing tool, depending on the phone type they selected in phone_type_w[2,3]. For week 2, the relevant time frame was March 14, 2021 until March 20, 2021 and for week 3, the relevant time frame was March 21, 2021 until March 27, 2021. ***Second, participants were told how to fill out the following items.*** ***Lastly, participants were informed that they would be redirected to their feedback report for the respective week once they had completed the app usage survey.***
	The app usage questions were completed separately per app. Participants could either indicate the number of hours and minutes they spent using this app over the past week (two separate variables), or select the response option "I do not have this app on my phone". Thus, three variables were created per app: hours_*app*_w[2,3], minutes_*app*_w[2,3], and no_*app*_w[2,3]. ***To avoid redundancy, this codebook exemplifies the three created variables for a placeholder (*app*) only.*** ***App usage was assessed for the following apps in this order (respective placeholder-substitute given in brackets): Facebook [facebook], Twitter [twitter], TikTok [tiktok], Instagram [instagram], Youtube [youtube], Reddit [reddit], Snapchat [snapchat].***
	How much time did you spend using the following apps over the PAST WEEK?
hours_*app*_w[2,3]	*Integer*
minutes_*app*_w[2,3]	*Integer*
no_*app*_w[2,3]	*Select one: 1 (I do not have this app on my phone.)*
	If phone_type_w[2,3] = 1 (iPhone), app category usage over the past week was assessed additionally. ***Again, three variables were created per app catgory: hours_*appcategory*_w[2,3], minutes_*appcategory*_w[2,3], and no_*appcategory*_w[2,3].*** ***To avoid redundancy, this codebook exemplifies the three created variables for a placeholder (*appcategory*) only.*** ***App category usage was assessed for the following app categories in this order (respective placeholder-***

	substitute given in brackets): Reading & Reference (Information & Reading) [information], Social Networking (Social) [social], Productivity (Productivity & Finance) [productivity], Education [education], Health & Fitness [health], Entertainment [entertainment], Creativity [creativity], Games [games], Shopping & Food [shopping], Utilities [utilities], Other [other].
	Select one: 1 (I do not see this app category.)
hours_*appcategory*_w[2,3]	*Integer*
minutes_*appcategory*_w[2,3]	*Integer*
no_*appcategory*_w[2,3]	*Select one: 1 (I do not see this app category.)*
	The item appusage_accuracy_w[2,3] was displayed to all participants.
appusage_accuracy_w[2,3]	How accurate does your app usage from this past week seem to you?
	Select one: 1 (Not at all accurate); 2 (A little accurate); 3 (Somewhat accurate); 4 (Very accurate)
If report_phoneactivity_w[2,3] = 1 (Click here to report on your phone activity if you are self-tracking via the EARS app or emails.), the end of survey text with a link to their personal feedback report was displayed.	

If No Phone Activity Report

If report_phoneactivity_w[2,3] = 3 (Click here if you do NOT want to complete the phone activity repport and want to be redirected to the end of the survey.), participants were forwarded to the end of survey text which displayed a linkt to their personal feedback report (if they were self-tracking via the EARS app or emails). After that, the survey ended.

Post Survey

Apr 02, 2021

Unless indicated otherwise, all items in the post-survey were request response items. If no response was given, participants were asked if they would like to go back and answer the skipped question before they could move on to the next page.
All items assessed in the post-survey have a "_t2"-suffix.
Items marked with an asterisk "" need to be recoded.*

Variable Name	Description
	If you are self-tracking via the app or emails, you will receive your feedback report at the end of this survey. Don't forget to download the report to your computer! If you are self-tracking via journaling, you will NOT receive feedback. Please note that once you submit the survey, you will not be able to access it again.
selftracking_choice_t2 *There were no response requirements for this item.*	Which self-tracking option did you choose in Step 2 of this writing assignment?
	Select one: 1 (Option 1: self-tracking via EARS app or emails); 2 (Option 2: self-tracking via journaling); 3 (A combination of both options)
	The following instruction was only displayed if selftracking_choic2_t2 = 2 (Option 2: self-tracking via journaling).
	This survey consists of two parts, which will take you about 10-15 minutes total. First, you will answer a few questions similar to those you completed in Step 1 of the assignment. Second, you will report on your app usage as you have been doing each week of Step 2 of the writing assignment. This survey is due on Sunday, April 4th at 6:00 pm CST. (You may still complete it after this date, but your responses won't be included in the social media feedback report we will be sending you as part of Step 3.)
	The following instruction was only displayed if selftracking_choice_t2 ≠ 2 (Option 2: self-tracking via journaling).
	This survey consists of two parts, which will take you about 10-15 minutes total. First, you will answer a few questions similar to those you completed in Step 1 of the assignment. Second, you will report on your app usage as you have been doing each week of Step 2 of the writing assignment. After you complete these two parts, you will receive your weekly feedback report. Don't forget to download your feedback report to your computer at the end of this survey! Once you submit the survey, you will not be able to access it again. This survey is due on Sunday, April 04 at 6pm CST. (You may still complete it after this date, but your responses won't be included in the social media feedback report we will be sending you as part of Step 3.)

NARQ-S

Leckelt, M., Wetzel, E., Gerlach, T. M., Ackerman, R. A., Miller, J. D., Chopik, W. J., Penke, L., Geukes, K., Küfner, A. C. P., Hutteman, R., Richter, D., Renner, K.-H., Allroggen, M., Brecheen, C., Campbell, W. K., Grossmann, I., & Back, M. D. (2018). Validation of the Narcissistic Admiration and Rivalry Questionnaire Short Scale (NARQ-S) in convenience and representative samples. *Psychological Assessment*, *30*(1), 86-96. https://doi.org/10.1037/pas0000433
Please note that in the pre-survey, answer option 1 = "Not agree at all".

	Please indicate how much the following statements apply to you using a response format ranging from "1 = do not agree at all" to "6 = agree completely."
	Rating scale: 1 (Do not agree at all) – 6 (Agree completely)

narqs_6_t2	Most people are somehow losers.
narqs_5_t2	I manage to be the center of attention with my outstanding contributions.
narqs_4_t2	Being a very special person gives me a lot of strength.
narqs_3_t2	I want my rivals to fail.
narqs_2_t2	I deserve to be seen as a great personality.
narqs_1_t2	I react annoyed if another person steals the show from me.

Satisfaction with Life Scale

Diener, E. D., Emmons, R. A., Larsen, R. J., & Griffin, S. (1985). The satisfaction with life scale. *Journal of Personality Assessment, 49*(1), 71-75. https://doi.org/10.1207/s15327752jpa4901_13

	Below are five statements that you may agree or disagree with. Using the 1 - 7 scale below, indicate your agreement with each item. Please be open and honest in your responding.
	Rating scale: 1 (Strongly disagree); 2 (Disagree); 3 (Slightly disagree); 4 (Neither agree nor disagree); 5 (Slightly agree); 6 (Agree); 7 (Strongly agree)
swls_1_t2	In most ways my life is close to my ideal.
swls_2_t2	The conditions of my life are excellent.
swls_3_t2	I am satisfied with my life.
swls_4_t2	So far I have gotten the important things I want in life.
swls_5_t2	If I could live my life over, I would change almost nothing.

UCLA Loneliness Scale

Luhmann, M., Bohn, J., Holtmann, J., Koch, T. & Eid, M. (2016). I'm lonely, can't you tell? Convergent validity of self- and informant ratings of loneliness. *Journal of Research in Personality*, *61*, 50–60. https://doi.org/10.1016/j.jrp.2016.02.002

	Rating scale: 1 (I never feel this way); 2 (I rarely feel this way); 3 (I sometimes feel this way); 4 (I often feel this way)
uls_1_t2	How often do you feel that you lack companionship?
uls_2_t2*	How often do you feel that you are 'in tune' with the people around you?
uls_3_t2*	How often do you feel that there are people you can talk to?
uls_4_t2	How often do you feel left out?
uls_5_t2*	How often do you feel that there are people you can turn to?
uls_6_t2*	How often do you feel that you have a lot in common with the people around you?
uls_7_t2*	How often do you feel close to people?
uls_8_t2	How often do you feel isolated from others?
uls_9_t2*	How often do you feel part of a group of friends?

Affective Well-Being

Richter D., Rohrer J., Metzing M., Nestler W., Weinhardt M., & Schupp, J. (2017). SOEP Scales Manual (updated for SOEP-Core v32.1). SOEP Survey Papers 423, Series C. https://www.diw.de/documents/publikationen/73/diw_01.c.571151.de/diw_ssp0423.pdf
Three items were added (enthusiastic, relaxed, stressed).

	This scale consists of a number of words that describe different feelings. **Please indicate for each feeling how often or rarely you experienced this feeling in THE LAST FOUR WEEKS.**
	Rating scale: 1 (Very rarely) – 5 (Very often)
awb_1_t2	Angry
awb_2_t2	Worried
awb_3_t2	Happy
awb_4_t2	Sad
awb_5_t2	Enthusiastic
awb_6_t2	Relaxed
awb_7_t2	Stressed

Politics-Related Items

The following items were taken from the Politics survey of the COVID sensing study: http://covid19.ut-wcwh.org/

	Please list your top three most preferred news sources.
news_sources_preference1_t2	1st most preferred
	Open answer format
news_sources_preference2_t2	2nd most preferred
	Open answer format
news_sources_preference3_t2	3rd most preferred
	Open answer format
tig_1_t2	How often can you trust the federal government to do what is right?
	Rating scale: 1 (Never); 2 (Some of the time); 3 (About half the time); 4 (Most of the time); 5 (Always)
political_orientation_t2	I would describe myself as:
	Select one: 1 (Extremely liberal); 2 (Liberal); 3 (Slightly liberal); 4 (Neither liberal nor conservative); 5 (Slightly conservative); 6 (Conservative); 7 (Extremely conservative)
voting_behav_t2	Did you vote in the 2020 Presedential Election?

	Select one: 1 (Yes, in person during early voring); 2 (Yes, in person on election day); 3 (Yes, by mail-in ballot); 4 (No, I wanted to vote but was not registered/didn't know how); 5 (No, I was not interested in voting); 6 (No, I wanted to vote but was unable to)
	The item voting_choice was only displayed if voting_behav_t2 = 1 (Yes, in person during early voting), 2 (Yes, in person on election day), or 3 (Yes, by mail-in ballot).
voting_choice_t2	Who did you vote for?
	Select one: 1 (Donald Trump); 2 (Joe Biden); 3 (Someone else); 4 (Prefer not to answer)
voting_choice_specification_t2	*Open answer format if voting_choice = 3 (Someone else)*

Authoritarianism Short Scale (KSA-3)

Nießen, D., Schmidt, I., Beierlein, C., & Lechner, C. M. (2019). An English-language adaptation of the Authoritarianism Short Scale (KSA-3). *Zusammenstellung sozialwissenschaftlicher Items und Skalen (ZIS)*. https://doi.org/10.6102/zis272

	How would you rate the following statements?
	Rating scale: 1 (Do not agree at all); 2 (Hardly agree); 3 (Somewhat agree); 4 (Mostly agree); 5 (Completely agree)
ksa_1_t2	Troublemakers should be made to feel that they are not welcome in society.
ksa_2_t2	People should leave important decisions in society to their leaders.
ksa_3_t2	Well-established behavior should not be questioned.

Changes in Routine

The items were taken from the Routine survey of the COVID sensing study: https://covid19.ut-wcwh.org/
To emphasize the correspondence between the "Changes in Routine"-items assessed in the pre-survey ("_t1") and the "Changes in Routine"-items assessed in the post-survey ("_t2"), the following change_routine_X_t2-items are numbered starting with a 4 and ending with a 9.
The item corona_development_t2 was self-created.

	During the PAST FOUR WEEKS, to what degree has the Coronavirus outbreak affected your:
	Rating scale: 1 (Not at all); 2 (A little); 3 (A moderate amount); 4 (A lot); 5 (A great deal)
change_routine_4_t2	Travel plans?
change_routine_5_t2	Education or the education of family members living with you?
change_routine_6_t2	Daily routine?
change_routine_7_t2	Work patterns?
change_routine_8_t2	Social life?
change_routine_9_t2	Living arrangements?
corona_development_t2	During the PAST FOUR WEEKS, COVID-19 has gotten…
	Rating scale: 1 (A lot worse); 2 (Worse); 3 (Somewhat worse); 4 (Neither worse nor better); 5 (Somewhat better); 6 (Better); 7 (A lot better)

Physical Activity Data Specification

The following item was self-created.

	The item scooter_t2 was only displayed if selftracking_choice ≠ 2 (Option 2: self-tracking via journaling).
scooter_t2	To better interpret your physical activity data, we would like to know the following: Did you use a moped or scooter at any time during the self-tracking part of this writing assignment?
	Select one: 1 (Yes); 2 (No)

Corona Vaccine-Related Items

The following items were self-created.

corona_vacc_t2	Have you gotten the COVID-19 vaccine yet?
	Select one: 1 (Yes); 2 (No)
	The items corona_vacc_type_t2, first_dose_t2 and first_dose_specification were only displayed if corona_vacc_t2 = 1 (Yes).
corona_vacc_type_t2	Which vaccine did you get?
	Select one: 1 (Moderna); 2 (Pfizer); 3 (Johnson & Johnson); 4 (I don't know)
first_dose_t2	When did you get your first dose of the COVID-19 vaccine?
	Select one: 1 (Please enter the date (mm/dd/yyyy); 2 (I can't remember)
first_dose_specification_t2	*Open answer format if first_dose_t2 = 1 (Pleaser enter the date (mm/dd/yyyy))*
	The items second_dose_t2 and second_dose_specification_t2 were only displayed if corona_vacc_t2 = 1 (Yes) and corona_vacc_type_t2 ≠ 3 (Johnson & Johnson).
second_dose_t2	When did you get your second dose of the COVID-19 vaccine?
	Select one: 1 (Please enter the date (mm/dd/yyyy); 2 (I don't remember); 3 (I haven't gotten the second dose yet)
second_dose_specification_t2	*Open answer format if second_dose_t2 = 1 (Pleaser enter the date (mm/dd/yyyy))*

Timezone

timezone_t2	In which time zone were you residing during the past four weeks?
	Select one: 1 (Central); 2 (Pacific); 3 (Eastern); 4 (Mountain); 5 (Other)
timezone_specification_t2	*Open answer format if timezone_t2 = 5 (Other)*

Weekly App Usage Survey (Week 4)

All items assessed in week 4 of the weekly app usage survey have a "_w4"-suffix.
All items were self-created.

report_phoneactivity_w4 *There were no response requirements for this item.*	Part 2: Phone Activity Report This report will help you complete Step 3 of the writing assignment, where you will reflect on your phone activity over the past weeks.
	Select one: 1 (Click here to report on your phone activity if you are self-tracking via the EARS app or emails.); 2 (Click here to report on your phone activity if you are self-tracking via journaling); 3(Click here if you do NOT want to complete the activity report and want to be redirected to the end of the survey.)

If Phone Activity Report

The following items were only displayed if report_phoneactivity_w4 = 1 (Click here to report on your phone activity if you are self-tracking via the EARS app or emails.) or 2 (Click here to report on your phone activity if you are self-tracking via journaling.).

phone_type_w4 *This item was a force response item.*	Do you have an iPhone or Android?
	Select one: 1 (iPhone); 2 (Android); 3 (Other)

If iPhone

The following items were only displayed if phone_type_w4 = 1 (iPhone).

	Please follow the instructions {here} to view your app usage with the iPhone's Screentime tool.
appusage_access_iphone_w4 *This item was a force response item.*	Are you able to access your app usage?
	Select one: 1 (Yes); 2 (No, take me to the end of the survey)

If appusage_access_iphone_w4 = 2 (No, take me to the end of the survey), participants were forwarded to the end of survey text which displayed a link to their personal feedback report (if they were self-tracking via the EARS app or emails or if they did a combination of EARS app/emails and journaling). After that, the survey ended.

If Android Or Other Phone Type

The following items were only displayed if phone_type_w4 = 2 (Android) or 3 (Other).

	Please follow the instructions {here} to view your app usage with the Android's Digital Wellbeing tool.
appusage_access_android_w4 *This item was a force response item.*	Are you able to access your app usage?
	Select one: 1 (Yes); 2 (No, take me to the end of the survey)

If appusage_access_android_w4 = 2 (No, take me to the end of the survey), participants were forwarded to the end of survey text which displayed a link to their personal feedback report (if they were self-tracking via the EARS app or emails or if they did a combination of EARS app/emails and journaling). After that, the survey ended.

App Usage

First, participants were instructed to report on their app usage from last week using their iPhone's Screentime tool or their phone's Digital Wellbeing tool, depending on the phone type they selected in phone_type_w4. For week 4, the relevant time frame was March 28, 2021 until April 01, 2021.
Second, participants were told how to fill out the following items.
Lastly, participants were informed that they would be redirected to their feedback report for week 4 once they had completed the app usage survey.

The app usage questions were completed separately per app. Participants could either indicate the number of hours and minutes they spent using this app over the past week (two separate variables), or select the response option "I do not have this app on my phone". Thus, three variables were created per app: hours_*app*_w4, minutes_*app*_w4, and no_*app*_w4.
To avoid redundancy, this codebook exemplifies the three created variables for a placeholder (*app*) only.
App usage was assessed for the following apps in this order (respective placeholder-substitute given in brackets): Facebook [facebook], Twitter [twitter], TikTok [tiktok], Instagram [instagram], Youtube [youtube], Reddit [reddit], Snapchat [snapchat].

	How much time did you spend using the following apps over the PAST WEEK?
hours_*app*_w4 *There were no response requirements for this item.*	*Integer*
minutes_*app*_w4 *There were no response requirements for this item.*	*Integer*
no_*app*_w4 *There were no response requirements for this item.*	*Select one: 1 (I do not have this app on my phone.)*

If phone_type_w4 = 1 (iPhone), app category usage over the past week was assessed additionally.
Again, three variables were created per app catgory: hours_*appcategory*_w4, minutes_*appcategory*_w4, and

	no_*appcategory*_w4. ***To avoid redundancy, this codebook exemplifies the three created variables for a placeholder (*appcategory*) only.*** ***App category usage was assessed for the following app categories in this order (respective placeholder-substitute given in brackets): Reading & Reference (Information & Reading) [information], Social Networking (Social) [social], Productivity (Productivity & Finance) [productivity], Education [education], Health & Fitness [health], Entertainment [entertainment], Creativity [creativity], Games [games], Shopping & Food [shopping], Utilities [utilities], Other [other].***
	How much time did you spend using the following app categories over the PAST WEEK?
hours_*appcategory*_w4 *There were no response requirements for this item.*	*Integer*
minutes__*appcategory*_w4 *There were no response requirements for this item.*	*Integer*
no_*appcategory*_w4 *There were no response requirements for this item.*	*Select one: 1 (I do not see this app category.)*
	The items appusage_accuracy_w4 and survey_day_w4 were displayed to all participants.
appusage_accuracy_w4	How accurate does your app usage from this past week seem to you?
	Select one: 1 (Not at all accurate); 2 (A little accurate); 3 (Somewhat accurate); 4 (Very accurate)
survey_day_w4 *There were no response requirements for this item.*	On what day are you filling out this survey?
	Select one: 1 (Friday); 2 (Saturday); 3 (Sunday); 4 (None of these)
	The item edit_w4 was only displayed if phone_type_w4 = 1 (iPhone).
edit_w4	In the iPhone's Digital Wellbeing tool, have you ever manually edited which apps are included in each app category?
	Select one: 1(No); 2 (Not sure); 3 (Yes)
If participants were self-tracking via the EARS app or emails or if they did a combination of EARS app/emails and journaling, the end of survey text with a link to their personal feedback report was displayed. After that, the survey ended.	

If No Phone Activity Report

If report_phoneactivity_w4 = 3 (Click here if you do NOT want to complete the phone activity repport and want to be redirected to the end of the survey.) and selftracking_choice_t2 = 1 (Option 1: self-tracking via EARS app or emails) or 3 (A combination of both options), participants were forwarded to the end of survey text that displayed a link to their personal feedback report. After that, the survey ended.

STEP 3: WRITING PROMPTS

Apr 5 – Apr 11 2021

Variable Name	Description
	Step 3 Instructions: Write about your lifestyle (3 points) In Step 3, you will spend approximately 30 minutes answering different writing prompts about your daily life based on your experiences of self-tracking. For those of you receiving feedback reports from Step 2, you should integrate what you learned from the feedback reports into your answers. You can begin Step 3 now, by opening the Qualtrics link below. **Step 3 will be available on 4/5 and close on 4/11 at 11:59pm.** This tool needs to be loaded in a new browser window {Load Writing Assignment 3, Step 3 of 3 in a new window}
	Well, that sure was an interesting month! As you know, this writing assignment was designed to get you to reflect on your own daily experiences and behaviors. Over the past 4 weeks you have been keeping track of how you spend your time – who you spend it with, how you interact with others, and the places you visit. You have also recorded your feelings soon after having them. For Step 3 of this assignment, you will think and write about your experiences and behaviors. But instead of relying purely on your memory, as we normally do when making sense of our past, this time you'll be able to draw on your own detailed records taken at the time (either on your smartphone or as daily journal entries).
	Take a moment to reflect broadly on what you have learned about yourself during this writing assignment. In particular, consider what you have learned, if anything, about yourself based on the experience of recording your daily behaviors and feelings and (for those who did the smartphone option) based on your personalized feedback. Consider who you spend time with, how much you interact with other people, the places where you spend your time, and how these things make you feel.
lifestyle_prose_1_wp	To what extent were your expectations about yourself and about your classmates supported? Were there any surprises? How do you think the coronavirus pandemic affected you and your classmates? Where possible, draw on concepts from psychology, such as personality (e.g., personality traits, values, identity), emotions, memory, etc. Overall, was this an

	informative exercise? Was it worthwhile? Enjoyable? Write for at least 15 minutes. Feel free to write in a "stream of consciousness" style.
	Open answer format
lifestyle_prose_2_wp	Daily life is changing rapidly as a result of new technologies. For example, the historically predominant form of socializing – in-person interactions – has declined over time; instead of relying on face-to-face conversations, people can call, text, post, chat, tweet, comment, like, and video chat with others from their mobile devices and social media platforms. These patterns were amplified by the coronavirus pandemic (which cut down on in-person interactions). Take a moment to think about the role that your phone plays in your social life and other parts of your life and in the lives of your classmates. Draw on the feedback you received on your weekly smartphone behavior and social media survey (if you completed it). Are you happy with the role that your smartphone plays in your life? What, if anything, would you change? Do you think your smartphone use has any influence (positive or negative) on your mood, your political views, or how you see yourself? Feel free to write in a "stream of consciousness" style. Write for at least 10 minutes.
	Open answer format
lifestyle_prose_3_wp	What do you think about this method for collecting data in psychology? Do you think it provides insights that other methods might neglect? What problems does it have? Can you think of ways of improving the method or using it in practical or clinical settings? Consider the kinds of data the EARS app (and other apps on your phone) are able to collect (e.g., activity classification; GPS); are there research questions that you think would be interesting to test using such data? Please write for at least 5 minutes.
	Open answer format
	And finally, we have just a couple questions to find out how accurate you found the feedback to be.
accuracy_feedback_week 4_wp	How accurate does your feedback report from last week (Week 4) seem to you?
	Select one: 1 (Not at all accurate); 2 (A little accurate); 3 (Somewhat accurate); 4 (Very accurate); 5 (I received the feedback, but haven't looked at it yet); 6 (I did the journal option so I didn't get feedback); 7 (I did the smartphone or email option but didn't get feedback); 0 (Skip question)
accuracy_socialmedia_fe edback_wp	How accurate does your social media feedback report seem to you?
	Select one: 1 (Not at all accurate); 2 (A little accurate); 3 (Somewhat accurate); 4 (Very accurate); 5 (I received the feedback, but haven't looked at it yet); 6 (I didn't complete the social media surveys and didn't get feedback); 7 (I completed the social media surveys but didn't get feedback); 0 (Skip question)
feedback_influence_moo d_wp	Overall, to what extent did seeing your feedback reports influence your mood?
	Select one: 1 (Not at all); 2 (Slightly); 3 (Somewhat); 4 (Very much so); 5 (I didn't receive any feedback)
feedback_influence_beh avior_wp	Overall, to what extent did seeing your feedback reports make you change your behavior?
	Select one: 1 (Not at all); 2 (Slightly); 3 (Somewhat); 4 (Very much so); 5 (I didn't receive any feedback)
feedback_informativenes s_wp	How informative was the self-tracking experience overall?
	Select one: 1 (Not at all); 2 (Slightly); 3 (Somewhat); 4 (Very); 5 (Extremely)
