Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR PROCESSING NOTES FOR #38912

ANES Social Media Study Restricted-Use Facebook Supplemental Data, 2020-2022

DS 0001: Survey Data

1. **Restricted-Use:** This data collection may not be used for any purpose other than statistical reporting and analysis. Use of these data to learn the identity of any person or establishment is prohibited. To protect respondent privacy, this data collection is restricted from general dissemination. To obtain this file, researchers must agree to the terms and conditions of a Restricted Data Use Agreement in accordance with existing ICPSR servicing policies.

2. **Open-Ended String Variables:** For processing purposes, the following open-ended string variables were masked and replaced with "MASKED BY ICPSR": **PID2D, PID2R, PK_CJUS, PK_SPEAKER, PK_SAMOA, W2PK_SPEAKER, W2PK_SAMOA, W2PID2D, W2PID2R, W2PK_CJUS, W3PID2D, W3PID2R, W3PK_SENMINLEAD, W3PK_VP, W3MAIN_OCCUPY.** To view the responses to these variables, please refer to the American National Election Studies (ANES) website.

3. **Additional Information:** For additional information on the ANES Social Media Study Restricted-Use Facebook Supplemental Data, 2020-2022 Study, please visit the American National Election Studies (ANES) website.

ANES Social Media Study Restricted-Use Facebook Supplemental Data, 2020-2022

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
